We Keep
FAMILY PRESCRIPTION RECORDS

Why Are They Important?

Because... when your prescription is received, your chart is checked AT THE TIME OF DISPENSING, which gives a complete picture of all medication being used by you and every member of your family, and thus provides:

- (1) In the event that you inform us of a reaction to a drug, or Prescription at any time, it is a special safeguard against receiving it again, from us.
- (2) For your Doctor's use it presents a record of medication dispensed by us or which you notify us you have been or are taking. If your Doctor requests this information, it may assist him as a check against drug incompatibility.
- (3) Insures finding quickly your prescription, should you lose the number.
- (4) An instant check against any drug which our records show you are allergic to.
- (5) A Photocopy provides receipts for Income Tax or Insurance upon request.

- Downtown post office
- Bell Telephone accounts no charge.
- We do pregnancy tests—2 hours.
