handyman tips
Make your lamp into a terrarium.

Terrariums are the latest fashion. And here's a way you can combine a creative lamp style with an interesting conversation piece. Simply buy a large wine bottle. Fill it approximately 1/4 full of indoor potting soil and insert your plants.

Patience is required during this procedure, but the end results are more than worth the effort. Then simply water your plants from the top of the wine bottle. Dry the top and put the lamp adaptor in place. You need only water this type of garden once a month. To do so, just remove the lamp adaptor. The Lamp Terrarium: a beautiful way to decorate and light your home — from Beaver.
