

# Tumbling on . . .

The crash of thundering waterfalls some in North Halton blends with the chirping of forest animals as the clear cool water tumbles merrily on its way through rocky passes and meanders down country ditches on its journey to Lake Ontario.

*"And see the rivers how they run  
Through woods and meads, in shade and sun,  
Sometimes swift, sometimes slow  
Wave succeeding wave, they go  
A various journey to the deep  
Like human life to sleep!"*
