Propose sewage plant expansion

A report recommending an expansion of the pollution control plant at Acton will go before Halton's Regional Works Committee this afternoon.

A senior engineer in the regional engineering department said the expansion would increase the capacity of the Acton plant from 650,000 to 1,000,000 gallons per day.

That capacity would allow Acton to expand to a population expansion. of 10,000. The town's population is about 6,000 now.

Engineer Ray Cripps explained that ministry officials are confident the plant can be expanded without harming Black

Creek. Treated effluent from the plant runs into the creek. Cripps noted that further expansion to the plant beyond the

handle effluent. The report going to committee this afternoon will recom-

mend consulting engineers be engaged to prepare plans for the

to install a 40 foot pole in the open space in front of the former clerk's office. A report from Alf Duby of the works department said a cement base would have to be

built to hold the aluminum or

steel pole. Councillor Les Duby said the cost was high, and any decision should be deferred until the ownership of the property is clarified.

No cat controls

Halton Hills cat lovers, rest assured-you won't have to get a license for your favourite feline-at least not

George Herrington of the Halton Hills Animal Control told Finance and Personel Committee on Monday night that "There is no way you can control cats. If you do, you will be the first municipality to do so."

Mr. Herrington went on to say that if the time comes when cats have to be licensed, proof of rabies shots should

chairman in Cr. Harry Levy's absence, said, "In the rural areas where they have to have cats, I cannot see why they have to be licensed. It wouldn't be practical."

Mr. Herrington expressed

the concern of rables transmitted by cats. "The majority of cats carry rables, but will not catch it." He continued to say that even though nothing can be done at the present time, he would like to see all cat owners make sure their pet has be given before the license is rabies shots, and some form of identification.

REGULAR TRIP to the dump ended in injury and damage this week. Bill Marshall makes the trip twice a week for Ridley Cartage but Friday, with snow and ice on the track, the truck skidded
