Staff studies standard charges

Halton Regional staffers will conduct in-house studies on sewer and water rates with a view to having reports compiled by January of 1977 and Jan. 1, 1976 respectively.

While Chief Administrative Officer Ernie Reid says the work can be done "in-house" instead of by consultants, he has budgeted for \$2,500 for expert advice.

Earlier staffers had recommended the study be done entirely by consultants. That suggestion was met with considerable opposition at the committee level.
