Dog licensing on Erin agenda

At their regular meeting August 5, Erin township council:

—Read a letter from the Guelph Humane Society who would like to initiate a dog licensing service to implement greater control of animals leaving the shelter.

They are contacting surrounding townships hoping for authority to issue tags.

—Received a request from Eric Salmond, Tenth Line resident, asking if he might borrow the site plans for Premier Concrete and Telephone City Gravel companies. Reeve Donald Mateson pointed out the plans could not be let out of the office in case of damage.

After discussing the matter thoroughly, council instructed clerk Elmer McKinnon to get copies of the large pages made, costs to be charged to Mr. Salmond.

Council also discussed the fixing of a fee to apply to any further similar requests.

—Were informed by Bill McEachern, Ministry of Treasury, Economics and Intergovernmental Affairs, that there had been an enquiry from C. Wright, Lakeshore Blvd., Toronto, into Erin township's bonus for killing dogs.

Mr. McEachern was advised that there was no bonus. The \$10 paid to farmers for shooting dogs in the act of killing or mauling their livestock, was paid under the Livestock Protection Act to defray costs of handling and burying carcasses.

—Were informed by the Ministry of Transport and Communications that a road subsidy of \$46,500 will be

mailed to the township treasurer.

—Received a request from Mrs. Helen Atkinson asking that the week October 27 to

November 1 be declared Children with Learning Disabilities Week.

—Paid out \$321 under the Livestock Protection Act.

Aim of bigger boys get rid of teacher

By Mrs. Ron McLean. There is to be a baptismal service next Sunday.

The stewards are planning an auction sale for Sept. 17. Keith Anderson is making good progress with his broken wrist.

Sermon
Rev. H. Finley's sermon topic was "See the Sower." God will never, ever, give up His work of loving you. This is the message of the parable of the sower; Jesus is speaking about Himself.

If we think just about the soil, three-quarters of the story deals with the non-productive. Watch the sower as he tells about the obstacles he comes up with. The path of established religion was hard ground.

When the synagogue was

denied Jesus, He had to go out into the highways and by-ways. Thorns included being rejected by His family.

The parable is all about the harvest. When life is manifest in your life, there is a great harvest. People caught up in the love of God will insist on sharing that love.

George Pidgeon, the first moderator of the United Church, tells of his boyhood in a one-room school. The aim of the bigger boys was to see how soon they could get rid of each teacher. When one tiny woman came, they thought she would be an easy mark. However, she changed their lives, because she never gave up.

In spite of all obstacles, God loves you and He never gives up.

26 seek position

Halton Region's Public Works Committee is in the process of choosing a man to head up the region's public works department.

Jack Corbett has worked as acting director for the past several months. He stepped into that position upon the death of Director Bob Bailie last spring.

Garbage is coming up roses.

Twenty years from now, crops growing on recycled garbage will be an everyday sight.

That's pretty hard to imagine right now because most of us think of garbage as just that—garbage. But in fact, it's a potential resource.

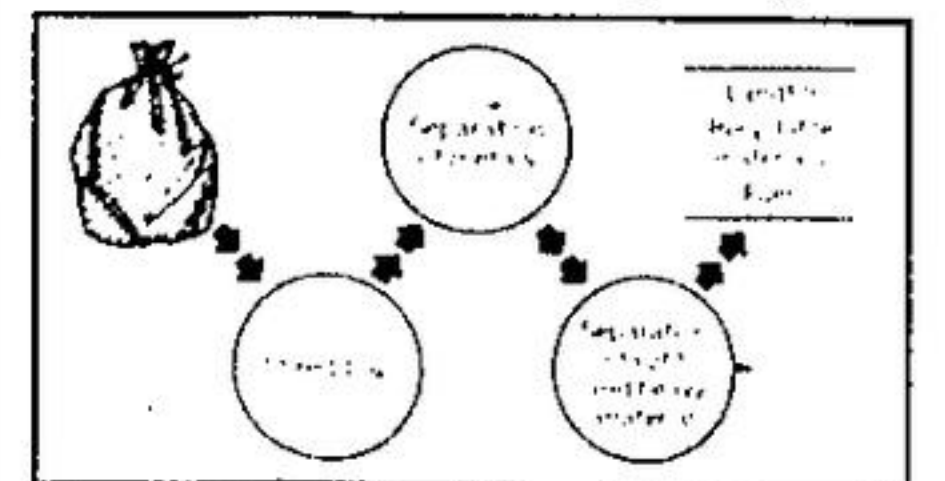

And the Ontario Ministry of the Environment is harnessing it.

How does it happen?

By recycling. Garbage will be taken to recycling centres where it will be shredded, separated, and some of it, turned into fertile soil to revitalize barren areas of the province.

The same basic shredding and separating process will also produce fuel, paper, cardboard, metals.

And we've just begun to explore the possible end uses of garbage.

The system: step by step.

A centre for advanced research will come up with many more.

Where is it happening?

Our Ministry has already inaugurated Ontario's first recycling centre in North York.

In the next two years, similar centres will be built to serve London, Sudbury, Peel, Halton, Metro Toronto and

south eastern Ontario.

In 15 years there will be recycling centres all across the province to handle 90 per cent of Ontario's garbage—everything from abandoned cars to organic waste.

Why recycle?

Because the people of Ontario will pile up garbage at three times the rate that the population increases.

The Ministry is working on ways to reduce that amount, but we'll always have garbage. And we're having trouble finding places to put it and the landfills to cover it.

Once garbage is being recycled, those problems will be over. But more important than the dumping problem, we're literally throwing away valuable resources with every ton of garbage we discard.

In a community of 100,000, garbage recycling will conserve the equivalent of up to 3,500,000 gallons of fuel oil a year, 3,600 tons of peat, nine times as much as 4,500 tons of glass.

Our recycling program is now being one of the most advanced in the world. It's a commitment to a different way of living.

And the whole world will be watching Ontario's garbage come up roses.
