

The squirrels build their winter homes.

Autumn in Halton

It takes a warm fire three nights to heat the small cabin in the woods.

Unpicked pears await the first frost.

Indian corn makes an attractive welcome to a home.

AUTUMN is a wonderful time of the year, when man and nature are cold winter breaths about. Cool days for raking the leaves and sunny days for walks in the woods, biting into crunchy apples straight from the tree.

The last roses of summer are treasured.

Joyce Beaton

Plants are brought indoors and are all the more appreciated.

Crunchy apples in a wicker basket. Pruning shears to trim the branches.
