

# Solid-State CHROMACOLOR II

The performance features that have made Zenith color TV such a good value over the years... are even more important today!

- **USES UP TO 64% LESS ENERGY** — The Zenith 100% Solid-State Chassis together with Zenith's Patented Power Sentry Voltage Regulating System provides significant savings in TV power consumption — up to 64% less power than previous Zenith all-tube color sets. Many color sets, four or more years old, use about as much power as five 75-watt light bulbs. Zenith's energy-saving 100% solid-state chassis with its Power Sentry system of voltage regulation needs only 130 watts of power... less than TWO 75-watt light bulbs.
- **100% SOLID-STATE TITAN® 300V CHASSIS** — Built into every Zenith 26" Chromacolor II set is a rugged, powerful 100% solid-state chassis.
- **ZENITH'S PATENTED POWER SENTRY VOLTAGE REGULATING SYSTEM** — together with Zenith's 100% solid-state chassis — conserves energy and saves money... virtually eliminates the effects of household voltage variations. This provides improved picture tube life, greater operating dependability, superb picture quality.
- **BRILLIANT CHROMACOLOR PICTURE TUBE** — represents a significant forward step in the state of picture tube technology — in brightness, sharpness and big-screen color. In this patented Zenith Chromacolor picture tube, every phosphor dot is surrounded with jet-black and fully illuminated. This Black-Surround field provides high contrast for a natural, true-to-life color picture.
- **SOLID-STATE ELECTRONIC TUNING SYSTEM†** — designed to be the most dependable, sensitive tuning system in Zenith history. No moving parts or contact points in either VHF or UHF tuner to wear out or get dirty and thus cause loss of signal strength.
- **ONE-KNOB VHF and UHF CHANNEL SELECTION††**
- **CHROMATIC ONE-BUTTON TUNING†**
- **AUTOMATIC FINE-TUNING CONTROL†**
- **ILLUMINATED CHANNEL NUMBERS†**
- **SHARPNESS CONTROL†**
- **TONE CONTROL†**

## NEW FROM ZENITH!

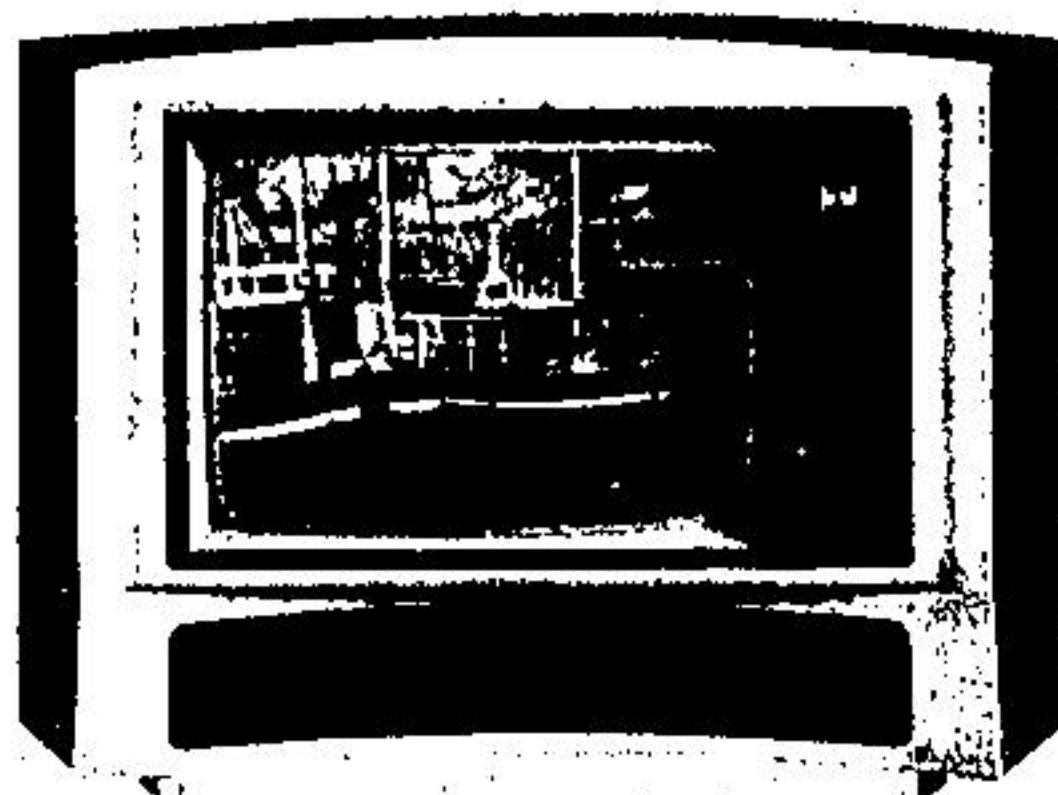

- **ZOOM SPACE COMMAND® 1000 REMOTE CONTROL** — Smooth, quiet remote control operation with all-new 8-function electronic transmitter featuring new, instant ZOOM. Just press the ZOOM button and you get instant close-up. The ZOOM picture is 50% larger. Just press the ZOOM button again and picture returns to original size.

NORMAL PICTURE

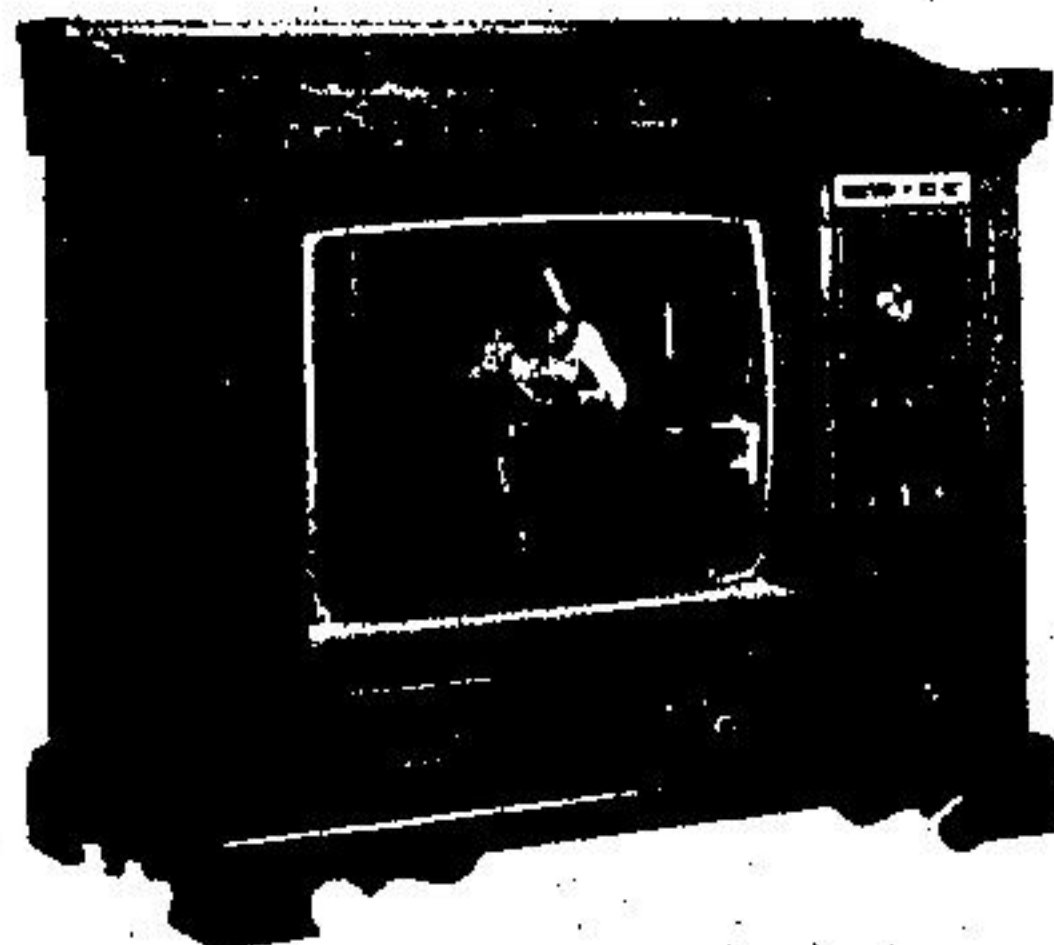

ZOOM PICTURE
