**DON'T...**

**DEPEND ON LUCK!!**

When it comes to making the biggest investment that most people make in their lifetimes, it just doesn't make sense to depend upon luck. The purchase of a home involves many thousands of dollars and a commitment for years to come. Professional counselling and assistance with the many technicalities of a real estate investment become important even with the acquisition of the very first home. The rising market of home values can make the right buy a defense against future inflation. If you have outgrown your present home or looking for an income investment, your "lucky move" could be contacting one of the professionals advertising weekly in REAL ESTATE MARKET PLACE.
