READERS WRITE: OUR

To delicate Alexander I wish to register my objections to the building of the municipal offices (under consideration by council at this time) to be built on the Seventh Line of Esquesing. We are supposed to be working on a restraint program. Also our taxes have gone up an average of \$100 per home owner for the year 1975. Therefore this is not the time to think of spending in the neighborhood of \$1,000,000 (estimate). We are sure with inflation as it is, the cost before completion

will be much more. Also the narrow margin by which council passed this program (one vote) should give those who voted YES some indication of the feelings of the people of Halton Hills. I am sure the majority, if put to a vote, would in their wisdom vote NO.

After all we do live in a democracy. Why not try a little democratic process?
