

WALKING PRECARIOUSLY over the Scouts Monkey Bridge is Jennifer Rowe. The Scouts built the bridge at the Acton Fall Fair, where many people enjoyed their display and the bridge.

Acton High Notes

By Jennifer Rowe

With school just into its second week students are already up to their necks in assignments that have to be completed.

Last Thursday the Student Association put on a "Get To Know Us" assembly. They had a variety of skits, designed to let students become familiar with the various clubs and departments at Acton High.

On Wednesday and Thursday a draw for the "record album of your choice" was held. All those students who purchased student cards were eligible to win. The two winners were Frances Fryters and Dave Berry.

I hope that you took my advice and visited the High School booth at the Acton Fall Fair. It was put together by the Student Association and was a mixture of the different aspects of Acton High life.

On Monday night, a Parents' Night was held. Parents were invited to come and meet the teachers. Principal Dean Fink gave a talk concerning the student now, and the things that they will be forced to face in future years.

It is reported 120 parents attended.

On Wednesday (today) Clare Henderson and Ross McGill took the grade 13 Canadian Literature Class to McMichael's Art Gallery.

Here they were able to examine pieces of Canadian art and the work of Canadian artists.

On Friday the Student Association is putting on a dance as a welcome to the grade 9's. Music will be provided by Disc-jockeys Unlimited and the price is \$1 for all students except grade 9's who get in free. Doors open at 7:45 and the dance ends at 11:30. Be sure to attend!

On Friday, Acton High's own co-ed baseball team will play an exhibition game against the staff. The team is using the staff as a bit of practise before the baseball tournament next Tuesday.

On Saturday the Outers are planning a hike starting at Orangeville and ending up at Terra Cotta.

Start saving your glass because next Saturday the Outers Club are planning a glass drive. They will start at about 9 a.m. and hope to cover the town. Donate to this group by putting out all the glass you can find.

Somehow last week I forgot Eva Sansom in my list of new teachers. Mrs. Sansom is the "Feature Teacher" this week, so be sure to read all the deep, dark secrets of her life.

Learn till the day we die—vice principal

"We must prepare children so they can get the most out of themselves," says Robert Little vice principal Larry Ciglen. "We are responsible for giving them the exposure to reach their goals."

The Meaford native believes "We are learning from the day we are born until the day we die."

Mr. Ciglen comes to Acton from Stewarttown public school. After graduating from Meaford high school, he went to Stratford Teachers College and got his Bachelor of Arts at Waterloo Lutheran University (now Sir Wilfred Laurier).

His first teaching position was in a small school near Markdale in Grey County. After two years there, he moved on for a six year stint in Port Credit, Chapel St. School in Georgetown was his next stop for one year before becoming acting principal at Norval school for three years.

The same amount of time was spent as vice principal at Stewarttown before coming here.

LARRY CIGLEN is Robert Little public school's new vice-principal.

During his teaching career Mr. Ciglen was involved in swimming with the Red Cross. He was a water safety supervisor. Now, however, the vice principal's time away from school is with the Georgetown Optimists Club, of which he is the outgoing president. He is also active with the Red Cross as a campaigner.

Mr. Ciglen feels the Halton Board of Education has the right idea when it provides programs for everyone, i.e. night school. "People can continue in their learning," he points out in keeping with his philosophy of teaching. Mr. Ciglen lives in Georgetown with his wife and two sons, ages three and six. He emphasizes that he enjoys his new post in Acton, liking everyone, in addition to the children of Robert Little.

Scout and Guide news

by Mark Rowe

Despite the exceptional amount of rain on Friday night and early Saturday morning, the 63rd annual Acton Fall Fair was great.

An excellent turnout of Brownies, Guides, Beavers, Cubs and Scouts made our showing in the parade exceptional. Many thanks to the parents who encouraged their children to attend the parade.

The Acton Scouts built another great display on the Fair grounds this year. Along with the towering entrance gate, the traditional monkey bridge was present. Helen Murray of this newspaper, did us the honour of officially opening the bridge by taking a perilous walk across it. She was followed by other leaders and throngs of children. The bridge was continuously busy until we took it down after six.

The Venturer company was busy all week as well as all weekend. They carried out many chores for the fair board such as setting up jumps for the horses, directing traffic and preparing for the Saturday night dance.

On Sunday afternoon, four Acton Scouts also helped in the English and Western horse rings. Congratulations, everyone, on a job well done!

Registration

The task of registration continues this week. This Wednesday evening, the Beaver colony will be accepting the registration of the first eight boys to arrive. All applicants must be five years

of age. Any lower or higher ages will not be accepted. Parents are to bring their lads to the new Scout Hall between 7:45 and 8:15 on September 22.

If the refusal of your boys' application angers you, then I suggest you, as a parent, volunteer as a leader so a second Beaver colony can be formed.

Bring O.H.I.P. number

Besides the usual meeting on Thursday, the Acton Scouts will be holding registration at their meeting. Applicants must bring in their fees and O.H.I.P. number at seven o'clock. Please note that Scouts formerly registered with our troop or any other troop in the world will be accepted before new applicants.

All other groups held their registration last week and so regular meetings will be held this week.

Scouts who are attending the district patrol leader camp this weekend must return forms and money on Thursday.

A group committee was held last night (Tuesday) to discuss the year's budget. The Scout and Guide Mothers also held a meeting. Among topics discussed was the upcoming dance on October 16.

Scouter's Club will be held tonight (Wednesday) at the Acton Scout Hall. All upcoming Cub, Scout and Venturer activities will be discussed. Meet in the new Scout Hall at 8:30.

Cold work treats result

Special events are being organized all during the school year for the keen young people who form the schools' safety patrols.

On Nov. 11 there will be 35 or 40 chartered buses heading out from Halton to the Ice Capades. All the green seats at Maple Leaf Gardens have been booked for safety patrolers.

The policemen in charge of the patrolers are planning something special for almost every month of the year, ending with a picnic and awards.

Most of the events involve cost sharing, since the officers find attendance is better that way and they can count on numbers expected.

"Especially in winter, the work is cold and lonely," says regional police safety officer Sgt. Bromley. The special events build up a camaraderie among the patrolers.

Don't waste a drop!

Don't waste a drop!

After the furnace, the water heater is the biggest user of energy in your home. Waste hot water, and you're wasting valuable energy.

That's a good reason for getting full value from your water heater in every way you can. By fixing leaky faucets. By insulating long runs of hot water pipe. By waiting until you have a full load before you switch on the clothes or dishwasher. By using cold or cool water when it will do the job. By taking shorter showers or shallower baths. By making sure that all the hot water that eventually goes down the drain works hard for you before it goes.

The Cascade electric water heater gives you a dependable supply of hot water and it makes good use of all the energy it consumes. But it's up to you to use hot water wisely. Don't waste a drop.
