

200 question 10 at MZB school . . .

(Continued from Page 1)

Tom Hill

Tom Hill, the incumbent mayor, lives in Glen Williams. He is a papermaker with Domtar. He was on Esqueping council and is a former reeve and deputy-reeve.

The issue in this election is regional government, Tom Hill told the crowd.

Regional government is the county system expanded to include some new areas of responsibility such as water, sewers and a few more roads. "I think we have seen in the past three years that this system has not worked efficiently. The region is too big and the south is too strong. . .

I believe we have to make our protest known to Queen's Park. We can offer revisions in Bill 151. We can try to change the responsibility for the roads, water and sewers back to the local municipality.

Last year in winter some of the roads were not plowed because they were regional roads, the crews were working in Burlington and Oakville. I ordered out our town crews. . .

We must make it clear to the province and to the regional authority that we will not tolerate that kind of treatment.

Many of you are upset by regional government. . . I'm not happy with it either. We will have to work on a private member's bill in Queen's Park.

Speaking of increased taxes, he said "we haven't done all that badly. The majority of the increase has been because of education tax increases.

He pointed out he can make the position of mayor a full-time one. A town of 35,000 can't be administered effectively and efficiently evenings and weekends.

Harry Levy

Harry Levy has been a Georgetown resident for 18 years; he is employed as a comptroller. He was a Georgetown councillor since 1969 and then elected to Halton Hills.

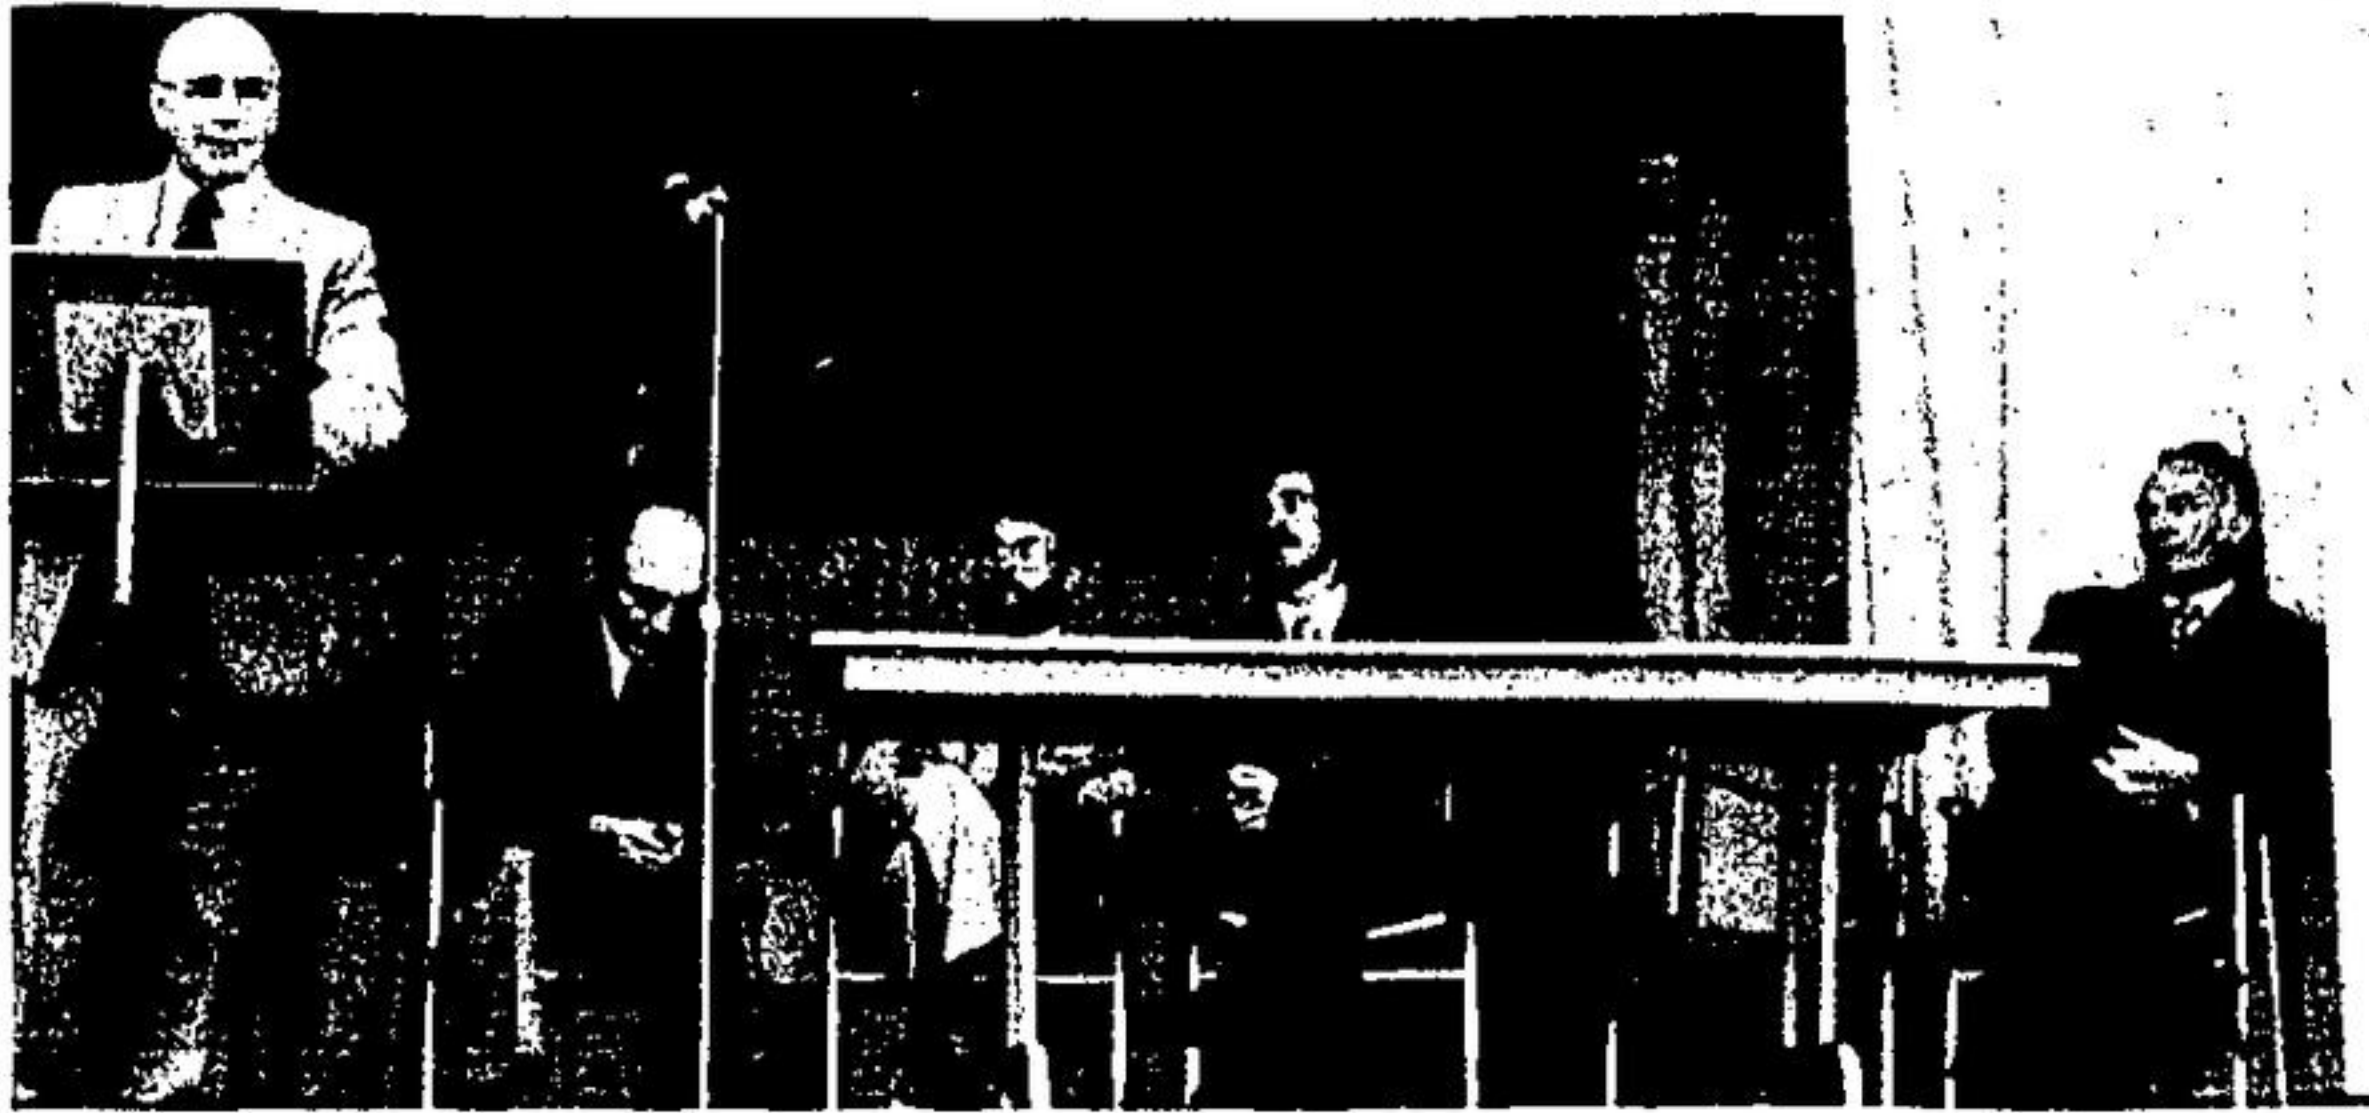

Harry Levy wants to see that people in the north don't get the dirty end of the stick at regional level. "I am aware the people in Acton feel the same way about Halton Hills as Halton Hills feels about the region. . . government is being further removed from the people."

I have the reputation of being a man of action and that action is not confined to my own ward. I have supported the three Acton councillors on items that affected the Acton area.

He explained he is a sports fan, having originally set up the girls' softball league, and having organized and supervised the bantam hockey tournament which is recognized as the best of its kind in the country.

He was active in Scouts and president of the district Scout Council for its first two years. He is a life member of a service club.

He wants amenities, but not uncontrollable debt. He said he had a large part

G. W. McKenzie

G. W. "Pat" McKenzie has been the regional councillor for ward one for the first three years and seeks re-election. He has been a resident of Acton since 1939; served with Lorne Scots and RCAF in W.W.II; was principal of Robert Little School for 30 years, taking the option of an early retirement in June 1973; is a charter member of the Acton Y's Men's Club and a past International president of the organization; a member of Trinity United Church, the Royal Canadian Legion and Walker Lodge in Acton; an honorary member of the Acton Rotary Club. He previously served seven years on the Acton Council, including terms as deputy-reeve and reeve and worked on numerous committees.

Mr. McKenzie said that in 1974 the provincial authorities forced a new form of government on us. I did not ask for it or vote for it. However I have done my utmost to establish effective government in Halton Hills.

Changes have been difficult to accept. . . many did not know whom to contact. "To establish effective government has been and will continue to be my full-time commitment."

There are many things left to be completed; he spoke of preparation for the official plan.

In 1976 council decided to give priority to the needs of local industry as opposed to new residential growth when the sewage plant is expanded; he intends to support this policy.

He was initially opposed to the new administration complex being built in George-

Gordon Dawe

Gordon Dawe was born in Toronto and moved to Speyside. He attended local schools and then Lakehead University for three years. I'm not going to sit on the fence, he said. Regional government was thrust upon us. If it is supposed to save money, why are our taxes so high?

He favors stronger area councils. "I abhor the possibility of one-tier government which would further weaken our local input."

I am not tied to any employer or special interest group and am free to devote all my time to this office. . .

He spoke of what he wants to see accomplished: the senior citizen apartments on Elizabeth; examination of recreational needs and operation, sound budget control and established regional and area guidelines which will limit debenture spending.

Is the money being spent here? Prices came down on ice rates; what will they be next year?

Our former OPP officers is now attempting to get things done. We are not ready for a municipal building at this police downtown. Sgt. Hilton (Continued on Page 9)

Mr. McKenzie said that in 1974 the provincial authorities forced a new form of government on us. I did not ask for it or vote for it. However I have done my utmost to establish effective government in Halton Hills.

Changes have been difficult to accept. . . many did not know whom to contact. "To establish effective government has been and will continue to be my full-time commitment."

There are many things left to be completed; he spoke of preparation for the official plan.

In 1976 council decided to give priority to the needs of local industry as opposed to new residential growth when the sewage plant is expanded; he intends to support this policy.

He was initially opposed to the new administration complex being built in George-

town, and even more so to the other suggested alternative of one-tier government for Halton.

Inflate study He said he understands citizens are initiating a comprehensive study to re-appraise the regional system; until this is done there should be no further centralization of services. Church St. improvements,

THE FLU.

This is how Ontario's no-cost flu protection program will work.

There could be an outbreak of flu in Ontario this winter. So your Province is recommending vaccination against both swine flu and Victoria flu for people age 65 and older, and people age 20 and older who have certain chronic illnesses such as diabetes, heart, lung or kidney disease. We plan to vaccinate them with one inoculation before the diseases strike — if they strike. There is no charge.

We are also offering no-cost swine flu vaccination to other people age 20 and older who want to be vaccinated. But no one will be required to accept vaccination — it is a personal and voluntary decision.

What these flus are
Both flus are caused by contagious viruses that spread directly from one person to another, just like the common cold. (Swine flu is not caused by eating pork.)
Swine flu is suspected of being similar to the 1918-19 flu which was responsible for the deaths of 20 million people world-wide, including 45,000 Canadians. Victoria flu was responsible for many deaths and illnesses as recently as last winter.

Symptoms
The symptoms are usually fever, muscle aches, headaches, chills and coughing. It takes one to three days from the time the virus gets into your system until you start feeling ill. The flu lasts two to seven days. With severe infections, flu can kill. Swine flu can kill within 24 hours.

Ontario's no-cost vaccination program
To ward off these two flus, Ontario's 44 local Medical Officers of Health will administer a province-wide vaccination program. Dates, places and times of clinics in your area will be announced.
Many of Ontario's 2,200 public health nurses will carry out the actual vaccinations. Some family physicians will be vaccinating their own chronically-ill patients. Your Ontario Government pays all costs.
Vaccinations will be given with traditional needles or with fast painless air spray injectors that shoot a light spray of

vaccine through the skin of the arm. The injector can vaccinate 1,000 people an hour, and it has been used safely for many years. Flu vaccination does not leave a scar.

Possible side effects for those who should be vaccinated
Most people will have no side effects from this vaccination. Serious side effects are rare, but they can occur — as with any vaccination. Minor side effects can include a sore arm, headache, fever and muscle aches, lasting one or two days. If these minor symptoms persist, contact your doctor. Protection through vaccination starts in about three weeks and will probably last a year or more.

Who should NOT be vaccinated
If you are allergic to chicken eggs, chicken or chicken feathers, don't be vaccinated at all, because the vaccine is made from chicken eggs and can cause a severe reaction. If you have fever, acute respiratory or other active infections, don't be vaccinated while you are ill. No one should be vaccinated for swine flu within 14 days before or after any other vaccination.

Flu vaccine will protect 80 to 90 per cent of those vaccinated — but there is no drug or antibiotic to cure flu, so vaccination is desirable.

For further information about the flu vaccination program, contact your local public health unit.

Halton Sketches
by John McDonald

A collection of more than 35 historical sketches by John McDonald about people and places in the past of Halton Hills.

Read of the early entrepreneurs — the Dayfoot Tannery, Georgetown's first hydro power, Hornby's Brain Brewery, Arnold's fine gloves, Beardmore's major industry, Sir Donald Mann and many more.

See the pictures from an earlier era, sought out to reflect these places and times.

Nearly 100 pages of easy and fascinating reading.
