# CREATE COMMUNITY JOBS NOW. GET YOUR APPLICATION IN BY FEBRUARY 4TH.

The restoration of historical buildings, the construction of a fire hall, the replacement of an outdated water system. If you stop and think about it there are probably many good projects that could create jobs and be of great benefit to your community.

This year, a new job creation program called Canada Works will help fight unemployment by providing funds to groups and organizations including private businesses, for worthwhile community projects.

If you have a project that can provide a minimum of five jobs for unemployed people in your area, submit your application to Canada Works.

But do it now. The deadline for applications is February 4th.

Right now, your Canada Manpower Centre has application forms and a Canada Works "Guide to Applicants" that describes the program and how to apply.

Visit your Canada Manpower Centre today. Canada Works: Make it work in your community.

This summer Young Canada Works will help reduce student unemployment by creating jobs in your community. The students will work on projects of community benefit that will enable them to test their career aspirations.

Any established organization can submit an application to Young Canada Works.

Your proposal should provide a minimum of three student jobs for six consecutive weeks. Projects can operate for up to 14 weeks between May and September. Your local CMC has a Young Canada Works "Guide" and application form.

Submit your application now. The deadline for Young Canada Works is February 4th.
