

# Marks & Spencer

*St Michael*

our famous label  
in

what could be more natural!

When you consider that we always choose the best fabrics for St. Michael merchandise, it's not surprising that we're showing a lot of Cotton for summer. Cotton has an impressive list of properties which we know you'll appreciate as much as we do: it's absorbent and allows the skin to breathe, soft and gentle to the touch, allergy free, cool, fresh, easy to wash and it wears very well.

We've shown just two items from our St. Michael Cotton collection but there's much more: pants and skirts to co-ordinate with tops, clothing for children and underwear.

St. Michael in Cotton... a winning combination at Marks & Spencer, where quality and value are always guaranteed.
