

Get the 'inside story' on saving energy

MicaFil Insulation

Easy-pouring MicaFil insulation makes adding extra insulation to your attic simple, clean and economical. MicaFil flows freely into all nooks and corners for complete protection against heat loss. It levels easily to create a uniform insulation barrier that conserves household warmth and precious fuel dollars. Made of expanded mineral vermiculite, MicaFil is dust free and light-weight for clean, non-irritating installation. And it won't burn under any circumstances.

Heat Recycler

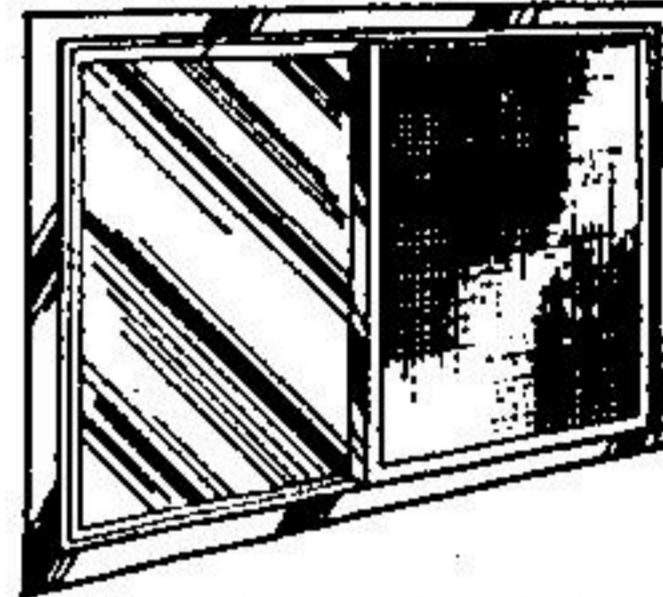

Save heating dollars by using all the heat you pay for.

In heated rooms ceiling and floor temperatures often differ as much as 20 to 30°F. The Heat Recycler transfers trapped warm ceiling air, gently mixing it with cold floor air and increases room comfort, reduces chills and drafts. Operates for less than 1¢ per day. Attractive design and neutral finish blend with any decor. Installs in 10 to 15 minutes
