

Thomas Organs introduces the Playmate '78

The most revolutionary organ that has yet to grace the Thomas banner, and just in time for Christmas, is indeed the Playmate.

Don't let the clowns in the illustration fool you, for this is not a toy, when the model illustrated is just one of four in the series.

Each is perfected in the highest standard of craftsmanship and sound control. Playmate is unique from any other electronic organ ever marketed before under the Thomas banner.

Playmate is not just a visually attractive 'heritage owned' beauty, it's also the first in its price range to allow for solo piano and harpsicord, chimes, Hawaiian guitar and an array of other features which are usually found in much more expensive models. Playmate also includes the very new disco rhythms within its shell.

Here's another plus!

With Playmate you can increase and customize your own sound by adding three options.

The first is 'Fancy Voice,' and gives you a whole new dimension of instrumental effects. Next the 'Orchestral Presence,' when your Playmate will sound richer and grander than ever, and you can add beautiful solo and accompaniment violins, grand chorus for concert hall effect, and vibra magic for added instrument realism.

The 'Arpeggio Magic' is another exciting option, and in essence is an illuminated area above the lower manual which gives the effect of full keyboard arpeggios. All you do is slide your fingers across the lighted Arpeggio Magic Strip, and the result is dazzling!

It's impossible to describe the tonal qualities of Playmate, and with the exclusive Thomas Color-Glo playing aid, you can play your own music almost immediately, and without lessons.

You'll continue to discover new sounds and effects for as long as you own the organ, while Thomas continue to incorporate such greats as the memo chord, fancy foot, and complete automatic rhythm sections.

A small deposit holds the model of your choice until Christmas, with easy finance terms arranged.

Full 5 year warranty, and free delivery in Metro Toronto. Playmate lists from \$1,650, and by the way, the bench is included.

You'll be enthusiastic when you hear Playmate. It's a whole new generation away from our time.
