THE '78 CONCORD D/L  
You've likely noticed that your present car is quite a bit bigger than the replacement available... and you've also noticed that the price tag is a lot different than your last purchase. AMC's new Concord is a real success because it's the car I believe is the best "buy" on the market today. With a wheelbase of 108". The car is the same size as cars that are priced hundreds of dollars more... but you sacrifice nothing in luxury or convenience. The Concord is still priced at \$4395 (or less). Come and see us for a test drive. Our stock situation is better than at any time this year. Includes AMC exclusive buyer protection plan II. Bank financing available.
