## More UFOs spotted in Oakville district

They're still seeing Unidentified flying Objects in Oakville with three new sightings reported to the Journal-Record in one recent week including one by the newspaper's reporter Ann Hauprich-Nielsen.

One woman said she saw an elliptical-shaped object completely illuminated and the color of the harvest moon one recent Saturday night. She estimated the object was 25 feet long and at first thought it was a balloon. She said it passed by the level of the seventh floor of two apartment buildings located on Queen Mary Drive.

Another woman said she and 10 other people saw two disc-shaped objects north of the Queen Elizabeth Way, west of Trafalgar Road, last week. Two more of the same objects were spotted and these were followed by two more pairs.

Reporter Hauprich-Nielsen said she was driving west on Derry Road between Trafalgar Road and Highway 25 when she noticed a "thing" in the sky ahead, "big, bright and flashing." She thought it was a plane crashing but later saw it was a football shaped object with yellow, orange and red lights across the middle.

UFO researchers have long claimed the Bronte-Oakville area is a base for UFOs.

**Royal Trust**
