STOP PRESS-NEWS FLASH

There will be no major styling changes in the new '79 Chevrolets to be introduced in early October '78, when the provincial sales tax on all new cars rises from 4% to 7%. Sticker prices of the new '79 models are also expected to rise approximately 5%. So your best now car buy this season will be from our huge inventory of '78 Chevrolets. You'll hardly notice any difference between '78 and '79 models — except for the \$320 to over \$1,280 you'll save.
