Ebenezer

Sunday school reopens for local youngsters

by Mrs. Ron McLean
Ebenezer Sunday school will re-open on September 10. The U.C.W. will meet on September 12 at the home of Marion Diamond. Mary Norrish is planning an informative program.

Mr. Finley spoke on "Non-stop to God." There are many words in the King James version that are not being used now, but we know what they mean because we grew up with them. Many young people don't know. In Romans, there is the old English form, "I purposed to come to you, but was let hitherto." Let means "prevented". In tennis service, if a ball hits the net, it loses power, and the server has to serve another ball. Paul was prevented from going to Rome. Often something stops you from doing what you want to do. Many years ago, Phillips Brooks preached in Boston. When he mounted the high steps to the pulpit, his face was like a vision of Jesus. The god that was in him took over. He had wanted to be a teacher, but was prevented. Many thousands were thankful, because they heard God's word through him.

Whistler went to West Point, planning to be an army officer. He flunked out, so he

took up oil painting. He enriched the world with his paintings, probably the most famous of which is that of his mother.

A young man achieved a high record in high school; he was ideal college material. However, his parents couldn't afford to send him. He turned bitter. St. Paul found a better way than that.

Paul wanted to take the gospel to the west. Spain was the farthest point known at that time. He was prevented. He had been flagged many times; till his body was broken, he had epilepsy, he was nearly blind. What did Paul do? He sat down and wrote a letter, to the Romans, pouring out his love for God. Everything works out for good to them that love God. According to a Greek legend, there were two young brothers, growing up on a farm, who got in with a bad gang. They were the only two who were caught, when some sheep were stolen. It was the cruel custom for the culprit to be branded on the forehead with the letters, S.T. "—for sheep thief. One became bitter and travelled. Everywhere he went, he had to explain what the letters meant. The other

brother stayed at home, and stuck it out. Years rolled by. A stranger came to town, and asked what the letters meant. He was told, "People around here say not that S.T. is the abbreviation for "Saint."

THIS IS CHIROPRACTIC

WHIPLASH DEFINED
A whiplash neck injury is the involuntary thrust of the head and neck in any direction, and the resulting record of the head and neck in the opposite direction, with injury to the surrounding and supporting tissues.

CAUSES OF WHIPLASH
The common causes are automobile collision, a sudden jerk on one or both arms, a violent blow to the head or chin, a reflex jerking of the head due to fright or sudden noise, or any kind of fall causing sudden, forceful movement of the head and neck.

THE INJURY
The forces causing the whiplash may result in concussion, contusion, or lacerations to the soft tissues, and may produce strains, sprains, subluxations (misalignments) and dislocations. Joint injuries are common and, on occasion, fractures may occur.

DEGREES OF INJURY
These may be affected by such factors as the length of the neck, weight of the head, age, or structural defects.

COMPLICATIONS
STRAINS, SPRAINS AND FRACTURES: Ligaments are flexible, for freedom of movement. However, if they are stretched beyond their elastic limits, injury occurs. If the continuity of the ligament remains intact, it is called a strain. A break or tear of the ligament is called a sprain. When the ligament itself does not tear, but the bone to which it is attached tears, a fracture occurs.

WHAT TO DO
If you are the victim of a whiplash injury, consult your Doctor of Chiropractic as soon as possible. He specializes in structural and spinal disorders. Follow his directions to obtain maximum results. Early care can prevent long term pain, which may be chronic if neglected.

Mrs. John Lighte of Acton and Mrs. Harold Theaker joined a tour group going to Alaska this summer. They flew from Toronto to Vancouver, from there to Seattle, then to Anchorage, all in one day. In Mount McKinley park they saw caribou, bear and mountain sheep, also a moose feeding its young on the road. They had to wait until it moved off of its own accord lest it charge the bus. A dizzying height reached was 20,000 feet up on a mountain. A boat cruise along the coast of Prince Rupert, the train to Edmonton, and the plane to Toronto, ended the tour with its varying modes of transportation.

Mrs. Gary Ferguson has returned from a two week visit with Mr. and Mrs. Sid Hanson at Maple Creek, Saskatchewan. Having flown out, on returning to Regina she found the planes grounded, so came home by bus.

My mother Mrs. Thomas Fines and myself, accompanied by Mr. and Mrs. William Henderson of Belwood, took a week's motor trip to Thunder Bay, where we visited a few days with a cousin Mrs. Alex Campbell at Fort William, within sight of Mount McKay. A few miles past White River, which they say is the coldest spot in Canada, a bear was trying to cross the road with three cubs. As we attempted to take a picture—at a considerable distance of course, she stood up on her hind legs to size up the danger. We also went to Kakabeka
