Thomas Organs

SHOPPERS WORLD
457-4838

We hope you will take the time to visit us during the festive season to listen to and/or play your favourite Christmas music and carols on the Thomas organs.

Thomas is still the only organ with the fantastic Color-Glo™ playing aid. So you can play your own music almost immediately. Without lessons. That's fun.

And as you develop your own natural musical talent, you won't outgrow your Playmate™. Because your Thomas organ will always offer new challenges. And the features that make playing it so easy at first, continue to add to your talent by freeing you from routine tasks and allowing total creative freedom.

The Thomas Playmates™ have features and voices that virtually keep you discovering new sounds and effects for as long as you own the organ. Memo Chord™ for one-finger chords. Fancy Foot™ for automatic bass pedal patterns. A complete automatic rhythm section for your choice of drum patterns. Plus a host of combinable solo and accompaniment voices.

It's all there. And it's all waiting for you right now. So if you haven't seen the Thomas Playmates™, do it today. Just think what you're missing.
