# Milton Hobby Craft

THE PERFECT GIFT IDEA

**Easy Threading**  
Easier than a lot of tiny eye holes the thread passes through a few open guides right down to the needle

**Husqvarna Trimmotion**  
Makes it possible to sew strong elastic seams and a variety of decorative stitches

**Interchangeable Stitch Programmers**  
With these colour-coded programmers, you can sew up to 44 set stitches on a Husqvarna 2000. As new materials come along, new programmers can be added to your machine.

Available in White or Royal Red

**The Slimmest Free Arm**  
Now you can get at awkward corners easily

**The Jam Proof Shuttle**  
To make sewing easier for you, the bobbin thread comes up automatically. The shuttle is 100% jam proof. (You can even run a Husqvarna 2000 on flex fabric - it won't jam.)

**Low Speed Gear**  
Allows five times the needle penetration power at low speeds. Now you can sew heavy materials or intricate designs with stitch by stitch precision.

**Permanent Lubrication**  
The Husqvarna 2000 is permanently lubricated. No oiling, no oil spots.

**If you spend 100 hours a year sewing, spend one hour with a Husqvarna.**

It takes about an hour to demonstrate all the unique features of a Husqvarna machine. Features that aren't found on any other machine at

any price. Features that are guaranteed (in writing) to work for 25 years. And you don't have to pay for this guarantee. It's free.
