QUALITY ENGINEER

Prove your growth potential

Implant quality control systems for this heavy metal stampings manufacturer and reap the benefits of early promotion.

Control the quality; optimize the bottom-line...that's your motto. Reorganize, develop, plan, direct. Take charge. Help us build in quality and, of course, profitability. Our pragmatic client demands high standards of quality...teamwork in quality management is fundamental.

This is a big operation, with over one hundred big mechanical and hydraulic presses.

Your background is heavy industry and you understand machine processes and heavy presses. You have the supervisory skills to lead the three inspectors who will report to you.

Attractive Ontario city. Affordable housing. Good compensation and career prospects.
