Triplets receive gifts gathered by Chamber

Dave and Elly Mc-Intrye, parents of Acton's now famous triplets, were surprised last Tuesday when members of the Chamber of Commerce made an unexpected visit to their Main St. home to shower them with gifts from local merchants.

At the time of the delivery of the goods, only Brian and Phillip were home from the hospital. However, Derek joined his brothers on Saturday.

The boys were born September 8 in McMaster Medical Centre, Hamilton, but were later transfered to Guelph General Hospital where they remained until September 29.

Merchants in town followed the lead of Dave Manes of Acton IGA who, upon news of the triplets arrival, offered six monthe of free food.

Town shocked to hear of death

Residents of Acton and Georgetown were shocked and saddened last week to hear of the tragic death of Michael Vukovich, 7, son of former Acton doctor Joe Vukovich and wife Gail.

The family had moved to Cedar Falls, Iowa in August, where Dr. Vukovich had accepted a position on the staff of the hospital. He started his new job the same day as the tragedy. Sons Matthew, 5, and Jonathon, four months, are

resting comfortably in a Cedar Falls hospital, after spending several days in intensive care. Mrs. Vukovich has also been admitted to hospital. Funeral service was held yesterday, (Tuesday) for Michael at St. Mary's Catholic Church, Port

Former neighbors of the Vukovichs have set up a fund at the Bank of Nova Scotla, Acton for anyone who wishes to show their support and sympathy to the family. Cheques may be made out to "The Vuko-vich Fund" until December 30. Names of all donaters will be forwarded to the family. The money will be used for assisting the family in their

figures

Continued from page 1 In theory, the charge to each ratepayer should be just about equal to the cost required by the region to treat water and send it back into Lake Ontario.

Mrs. Allingham expressed doubts about equality in assessment. She said industrial chemicals and heavy paid for?

metals takes the bulk of

treatment monies. She said she wanted an assurance heavy polluters of the sewage system would pay the fair share of water purification. This was included in an amendment on the sewer rates passed by

council. Mr. Farmer said the purpose of the \$1,886,788 grant is to offset the impact of the expected increase to "the losers" in the program which means the ratepayers.

He ended his summation of the equalization plan by calling it, "the most thoroughly researched document to come out of my department since it was formed."

Under user-pay, simple method of trimming the water-sewer bill would be to conserve on the use of water, he said. A number of perceived inequities were discussed

by councillors. million or more de-Oakville Councillor Terry Mannell wanted to pending on inflation. know if homeowners now

Weekend fire singes mail

Halton Regional Police are continuing the investigation into the weekend fire at the Acton Post Office where about \$5,000 damage was sustained.

Sergeant Keith Robertson indicated Tuesday the case appears to be one of malicious damage rather than arson. Police are waiting for a report from the Forensic Science Laboratory at Toronto where some evidence was sent for testing.

Acton Postmaster Bob Hammond said in an interview Tuesday he has no idea on the value of the mail damaged in the fire.

The fire was reported about 9:30 Sunday morning. Police contacted assistant postmaster Chris Mc-

Damage was confined to the chute and the contents of the box in the lobby, according to Mr. Hammood. No damage was sustained to the chute which opens outside the building or to the outside mail box.

The chutes are protected against fires by about a quarter-inch of asbestos panel.

The damaged area is coated with fine soot. Heat damaged some wiring in the building. Fire Chief Mick Holmes said be believes the blaze extinguished itself.

Acton Postmaster Hammond stressed that officials try to extract as much information to the addresses, with a note of explanation. If only the return address can be discerned, the mail will be returned to the sender with a note of explanation.

Mr. Hammond said he thought mainly letters

were damaged. Though the fire department cleared out the smoke and cleaned up the mess, there was film of soot on most items in the building Tuesday. Even the lunch tables in the basement were covered, Mr. Hammond said.

Mr. Hammond noted that on weekends the outside box is mainly used, so the amount of mail in the building would be minimal.

Some posters which were attached to the east doors of the post office were also damaged by flames, and some glass in the doors was broken.
