

# Caravelle 'puts-it-all-together' for you with DECORELLE...

...a sampling system that coordinates carpet colour with wallcoverings, paints, and fabrics for upholstery, drapes and accents.

To make it a lot easier for you to choose just the right carpet colour; every Caravelle carpet sample in the 'Decorelle' program has colour co-ordinated materials on an attached swatch card. It shows you, at a glance, what goes best with each colour. 'Decorelle' puts you in the picture as never before, by giving you professional decorating assistance when you need it most — when choosing a carpet.

Now you can choose with confidence not only carpet colour, but all the colours and materials that go into completing your interior decor. 'Decorelle' solves the problem by "putting-it-all-together".

*Caravelle's quality carpets are protected with 'SCOTCHGUARD' carpet protection. Treated carpets stay cleaner two to three times longer than untreated carpets.*

## 'Soufflé'

(ILLUSTRATED ON FRONT COVER)

**FORTRON**

Sumptuous Soufflé gives your interior a rich sense of luxury. Soufflé's twenty luscious decorator hues are keyed to satisfy today's discriminating tastes. Made of durable Fortron, it has the aesthetics of wool, the resilience of nylon, and bulk of polyester.
