INTRODUCING THE BIGGEST COLOR TV SCREEN IN SONY'S HISTORY

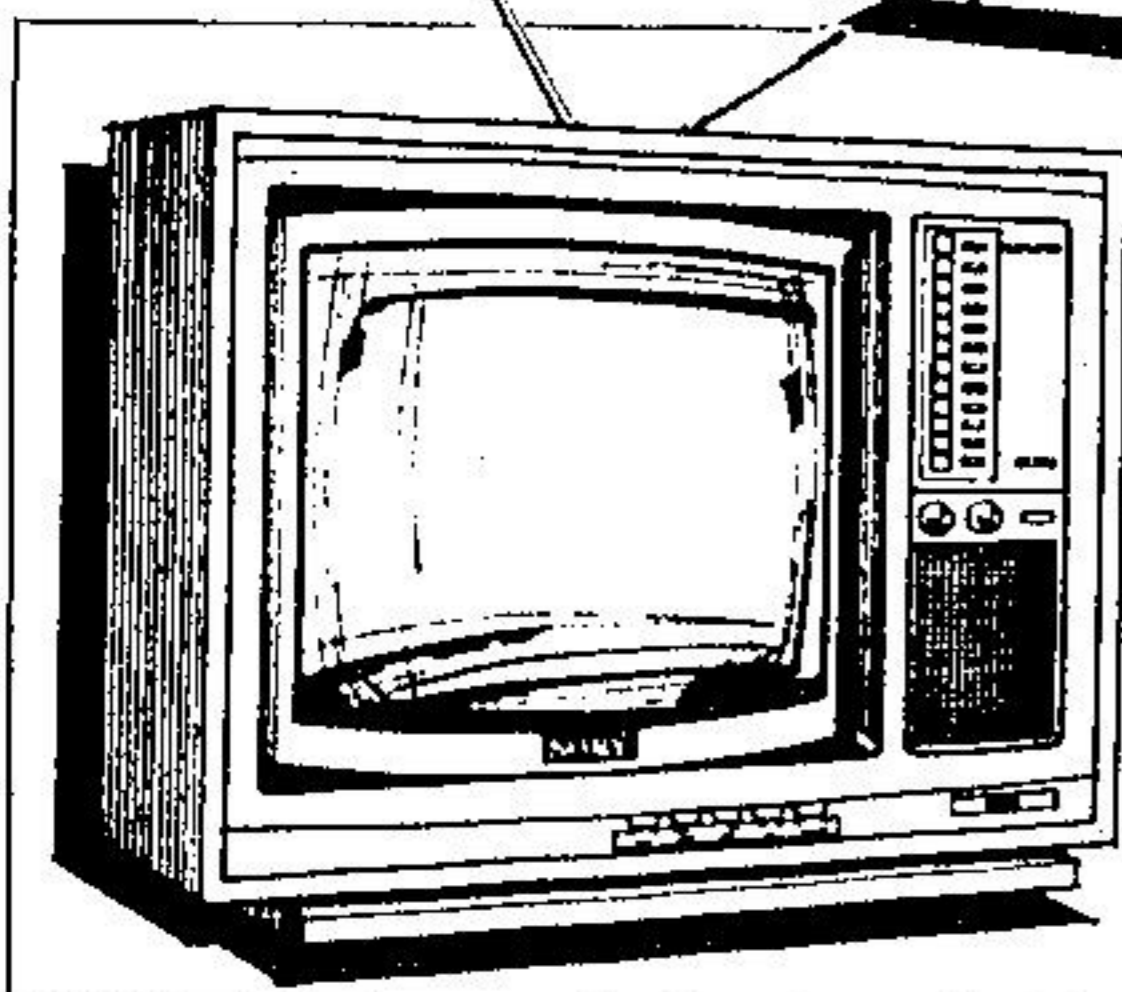

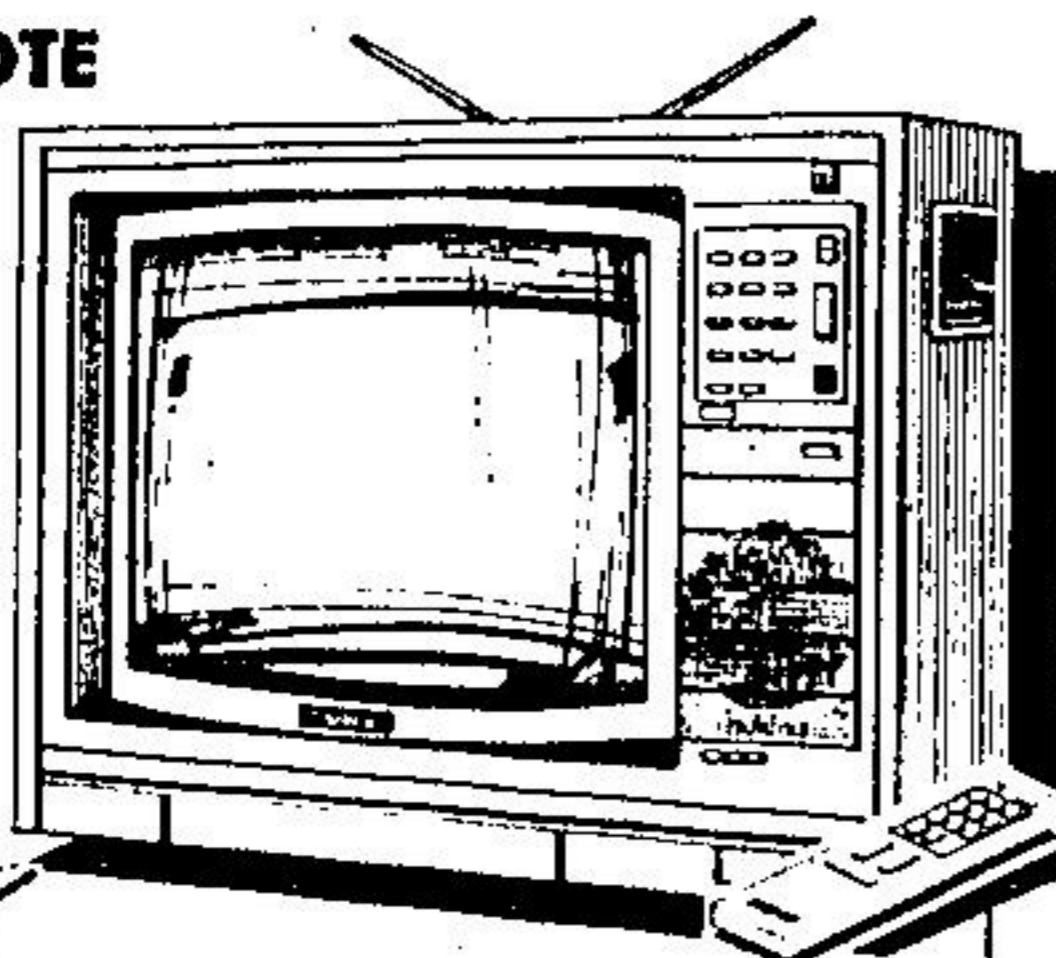

(A) KV-2643R Trinitron Color TV. Sony's biggest color picture ever. In a richly designed hand-finished pecan veneer cabinet with the look of today's most luxurious contemporary furniture. Inside, Sony's Velocity Modulation scanning system delivers bright, sharp, terrific color images — the kind you'd expect to find only on small-screen sets. And with the all-new Express Tuning keyboard and Express Commander remote control unit, you can turn in the station you want instantly, by just touching a single button. At last, Sony makes it big — and this beautiful console makes television viewing an even bigger thrill!

NOW YOU CAN DO MORE WITH YOUR TV SET THAN EVER BEFORE.

Here's the easy Sony video way. When you want to watch a movie all you do is slide in a videocassette and push a button. There's no projector. No screen to set up.

And, as well as home movies, you'll also be able to record and play back anything on TV!

(HVC-1000 VIDEO CAMERA) NOW YOU CAN HAVE INSTANT HOME MOVIES

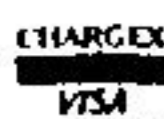

With the new Sony HVC-1000 portable Video Camera you've got an indoor/outdoor TV production system all your own. Video movies require no processing, and can't be easily broken or tangled. And a 1-hour Betamax Video-Cassette holds the equivalent of 16 reels of 8mm film, so video movies are more economical too. Visit AVA and let them demonstrate this unique video system for you!
