The end of an era was marked Saturday as the Acton Hydro Comission and staff held a farewell party. They disband March 31, to be amalgamated with Georgetown and Esquesing to

form a Halton Hills commission April 1. Saturday night also marked the end of a phase in my journalism career. As a reporter and later as news editor, I covered the commission's meetings for over five years. Admittedly their 'electorial lingo' was not always easily understood, but the commissioners were always accessible to my questions.

I covered the commission when Ted Tyler Sr. died three years ago, and when Les Duby passed away last

Mayor Pete Pomeroy summed up my own feelings during his speech Saturday night when he credited the success of the commission to the sincerity of the members. They all called "a spade a spade". Commissioners Wilf McEachern, Bob McArthur and Orville Brown, and staff members Doug Mason, Audrey Urguhart and Marj Louttet became part of my Acton

Acton's lost many fine natives to the 'go west young man' boom of recent years. However, we have lost one former resident who joined the first boom in the early 1900's.

Arthur Martin Zimmerman died in Neepawa, Manitoba, December 22, at the age of 93.

Mr. Zimmerman lived in Acton from 1898 to 1901 as a young teenager, while he learned the farming trade from Thomas Richardson. He went west for a few years, before returning to Ontarlo. However, the lure of the prairies was strong and he travelled west again. In 1908 he married Margaret Jane

Sayers of Acton, and together they made their home in Saskatchewan. In the past few years, Mr. Zimmerman was in poor health and was

forced to live in a nursing home. His daughter Margaret devoted her life to him until his death. Mr. Zimmerman was predeceased by

his brothers Frederick and Roy, sister Elizabeth, son Charlie and wife (in 1956.) He is survived by daughters Margaret, Neepawa, and Nell in Portage, Manitoba, and son Arthur in
