

BEAVER MANUFACTURED HOMES

A DIVISION OF BEAVER LUMBER CO. LTD.

Build Your Own Home

You can actually build your own Beaver home and save a great deal of money. A good part of the project really needs no extra-special skills. When your foundation is ready you can close in the exterior "shell" in as little as one day. Beaver gives you a head start by pre-manufacturing the roof and wall sections. The remainder is delivered in phases. You simply arrange these deliveries with Beaver.
