Tories tired, NDP dead, Liberal leader sees victory

Halton-Burlington MPP Julian Reed and Ontario Liberal leader Dr. Stuart Smith answer questions at last Wednesday night's riding meeting.

"If there was an election, so be it, Mr. Lewis would say. "But that has all changed now, my friends, because the NDP knows it will lose more than half its seats. "The NDP does not stand on principle...it stands for nothing but a vain hope for self preservation," he said. Dr. Smith said the greatest hopes for the Liberal party in Ontario lie with the next campaign. He said the Progressive Conservative provincial party has never won more than 50 per cent of the popular vote in the past 35 years but it has always "been the split vote to the NDP which kept the Tories in."

Dr. Smith said in the election, which must be called sometime this year, the Liberal will follow in the footsteps of the federal party in throwing out the PCs.

He said the people of Ontario are tired of "a branch plant economy as practiced by Premier Davis."

He noted as an example the Ontario loan of \$15 million to Abitibi-Price paper mills for pollution control. This grant was used by the firm to buy equipment from Finland.

"Why in the world would we go to Finland? "We have the largest pulp and paper operations in the world, yet we have to go to a place like Finland...it simply staggers the imagination," he said.

Dr. Smith said he also did not intend to see the current situation of teacher strikes continued. He said his party would not allow teachers to strike nor would boards of education be allowed to lock out teachers. He said his party policy is for compulsory arbitration, so "the young people of Ontario are not held to ransom."

In terms of the layoffs at Ford of Canada, Mr. Smith said there are no easy solutions although he blamed the Davis government for signing a contract with Ford which held no guarantee of the jobs to be created.

Dr. Smith said Ontario should have forced Ford and other car makers to produce "cars that make sense" instead of the full-sized automobiles which are no longer selling.
