

NOVA SCOTIA

For the love of life.

If you love life, you'll love our way of life. Relaxed. Unhurried. Pressure free. You can come dig for clams with us. Bet you've never done that before! Or you can go fishing or sailing or swimming or scuba diving or browsing or sightseeing through the dozens of quaint little fishing villages that dot our shores. Our life is the ocean. Our life is also lush valleys with rolling hills, fantastic campgrounds, great museums and historic sites where we can show you a past that the present has hardly touched. For the love of life... come live our life. We are what the good life used to be.

It's so nice.
