

TRAVELLING BY BIKE, BOAT, BUS, CAR,
CAMPER, PLANE, TRAIN, OR, BY FOOT...

CANADA

WIDE OPEN FOR VACATION VALUE

Lots of fantastic things have happened since the Canadian Government Office of Tourism got together with the tourism industry to make a vacation in Canada more affordable.

Tried and true favourites

For family travel, the automobile lets you monitor the speed with which to view Canada best. Take advantage of the many car/hotel packages now available and save the mileage on your own pride'n'joy. Prefer to let someone else do the driving? Then hop aboard the air-conditioned buses of Voyageur, or Trailways.

For mini-vacations, Hospitalité Tours affords you the opportunity of taking in the cosmopolitan flavour of Québec and Ontario.

Some surprisingly affordable ones

Choose from some of the value-packed tours offered by Share Canada with Air Canada, CP Air's Canadian Routes or, Pacific Western. Benefit from flight discounts... flying charter class or at night on scheduled

flights, or on advanced-booking charter (ABC) flights operating between major cities across Canada saves you the most money. Remember to book early.

Relive a little history - travel across Canada by rail - VIA Rail Canada. VIA Super Econo tours let you see Canada close up!

And for something different

How about trying your hand at being captain aboard your own houseboat?

Other packages include cruises. After all, if you're going to fall in love with Canada, you might as well be aboard a love boat.

Or, for landlubbers, some packages will treat you to the use of a camper for total freedom in the great outdoors.

Complete or tailored to your requirements - travel agents everywhere are waiting to help.

Your travel agent knows all the best places and has a complete assortment of vacation guides and schedules to help you to arrange a vacation package to your liking.
