

Individual award winners in the Family Restaurant League included front row l. to r. Pat Allen (high single with handicap), Marilyn Briggs (high triple flat), back row, Shirley Hunter (high single flat), Anne Greer (Ken Hulford Memorial Trophy for Most Improved and Sportsmanship) and Allison Willmott (high triple flat).

Area fishermen eligible for big fish contest

Local fishermen have once again got the chance to enter the Ontario Federation of Anglers and Hunters (OFAH) 22nd annual Molson's Big Fish contest.

The contest officially started on April 25, in conjunction with the start of the 1980 angling season.

Every angler who enters a fish over the Molson's award weight will receive a reproduction of a Michael Dumas print.

Cash prizes for the winner remain at \$500. The top 15 fish entered in every category earn cash.

Entry forms for the contest are available from bait and tackle shops, lodges or from the OFAH in Peterborough.

The categories are: Brook Trout (award weight) 3 lbs., small mouth bass 4 lbs, large mouth bass 5 lbs, rainbow trout 6 lbs, Walleye 8 lbs, salmon 12 lbs, lake trout 15 lbs, northern pike 15 lbs, and maskinonge 20 lbs.

Acton resident John "Bus" Chisholm came eighth in the rainbow trout category last year - enough to win him a Dumas print and \$20 cash.

Meanwhile the OFAH has announced a new conservation award. Called the Carling

O'Keefe Professional Conservation Award, it will go to the person who, as part of his or her employment, makes the

greatest contribution to conservation or to recreational hunting and fishing. Typical professionals who might qualify

would be biologists, enforcement officers, researchers, managers of conservation organizations and foresters.

The OFAH is once again running their annual junior conservation school at Leslie M. Frost Natural Resource

Centre near Dorset on Lake St. Nora. The program is open to children of OFAH members only, from ages 13 to

16. Applications are available from the secretary-treasurer of each zone.

Dominion Stores Limited

W. Barry Hagan

Roger E. Acton

Raymond J. Menard

Vlad E. Romanchych

Chester H. Wilcox

Mr. Allen C. Jackson, President and Chief Operating Officer of Dominion Stores Limited is pleased to announce the following recent appointments:

W. Barry Hagan, Vice-President, Retail Operations, Western Canada.

Mr. Hagan joined Dominion Stores in 1963 and has progressed through various phases of retail and merchandising operations in Ontario. He was most recently Division Manager, Western Canada. He will be based in Winnipeg.

Roger E. Acton, Vice-President, Merchandising.

Mr. Acton joined the Company in 1962 and has served in all phases of retail and merchandising operations. He was previously Director of Merchandising.

Mr. Romanchych joined the Company in 1960 in Vancouver. He has served in various retail and merchandising areas and was previously Director of Company Brands.

Chester H. Wilcox, Vice-President, Meat Merchandising.

Mr. Wilcox began his career with Dominion in 1947 and has served in a number of retail and merchandising responsibilities in the Company's meat operations. He was most recently Director of Meat Merchandising at Head Office.

Current splashes

The Spring swimming lesson program is in full swing and all of our classes are full. We have again offered instruction in Synchronized Swimming, Master swimming and a number of lifesaving courses. Later this spring we will be offering re-certification courses for the following lifesaving awards: Bronze Medallion, Award of Merit and National Lifeguard Service. We will also be hosting a Red Cross examination standards clinic on Sunday, June 8th, 1980 at

9:00 a.m. and encourage those interested to give us a call at 877-5185 and leave your name. On Saturday, June 21, Canoe Ontario will be at Fairy Lake Beach, Prospect Park. The Team will be conducting three clinics with one being geared to those people interested in teaching canoeing and the re-

maining two being geared to the general public and canoe safety. Halton Hills Synchronized Swim Team attended the Halton Regional Synchronized Swimming Meet in Burlington, Sunday April 27. The competition of figures and routines and our team did extremely well.

HELP THE MENTALLY RETARDED
"Support the Flowers of Hope"

You're young, bright, ambitious, active and you've just been hit by MS.

Welcome to the Club.

Unfortunately, the membership is not all that exclusive. The fact is, there are some 35,000 Canadians with MS. If you had MS you'd be paying your dues every day. You see, there is no known cause of MS, nor is there a known cure.

As it stands now, 35,000 Canadians are living with the prospect of impaired vision, losing their speech, or waking up one morning to find themselves partially paralysed.

If we hope to put an end to what is often referred to as the 'number one crippler since polio', we're going to have to get involved. Now.

Contact your local chapter of the Multiple Sclerosis Society. And find out how you can help. Do it for thirty-five thousand Canadians. Do it because you're young, bright, ambitious and active.

MS

What are we doing about it?

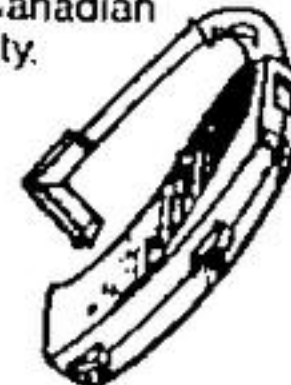

Contact your local Multiple Sclerosis Society of Canada Chapter.

THERE'S MORE THAN ONE KIND OF HEARING AID.

1 THE TTY HEARING AID.
The TTY is the telephone for the deaf. It passes typewriter messages through the telephone system. It's expensive and it's rare, so very few deaf people have their own phone.

4 THE HEARING AID HEARING AID.
Costly to buy, costly to fit and costly to service. There are many types of hearing aids on the market, but some people plain can't afford proper hearing aid care. Helping them is one of the things we do at The Canadian Hearing Society.

7 THE CORPORATE HEARING AID.
Every company can be a hearing aid by taking full advantage of the skills of hearing-impaired people. Employers actually rate them higher for productivity. And/or, you can send a corporate donation to the address below.

2 THE TV HEARING AID.
This is a subtitle system that can be put on programmes so that only subscribing deaf people can see it. But stations and cable companies in Canada have not made it available. As a result, 1,500,000 Canadians miss some or all TV programming.

5 THE DANGER HEARING AID.
A pocket-size life-saver, this vibrator will open up new fields of employment for deaf people. If a danger alarm goes off in a factory or construction project, the deaf worker will be warned. The Canadian Hearing Society is developing it now.

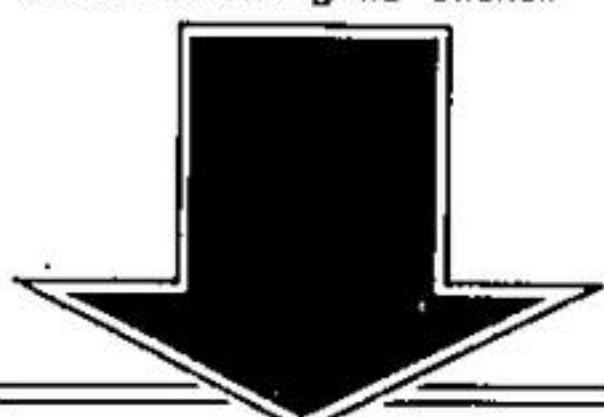

8 THE FIRE HEARING AID.
Even though it is recommended that every new house have one, there is no reliable fire alarm system for the deaf. We need more research money to make the world as safe for deaf people as it is for others.

3 THE OPTICAR HEARING AID.
This handy machine flashes your lights on and off when the phone rings, the baby cries or the door knocks. It's a necessity for many deaf people, but it's expensive.

6 YOU.
You can be a terrific hearing aid by sending us a cheque. We'll use it to help create a better life for 1,500,000 hearing-impaired Canadians. And we'll send you a receipt for income tax purposes (for donations over \$5) and an "I'm a Hearing Aid" sticker.

9 THE EVERYDAY HEARING AID.
Your everyday attitude can make a real difference. Be patient and take the time to communicate when you meet someone with a hearing impairment. And guard yourself and your family with regular checks by your doctor and Audiologist.
