

## Laurentian: a fine education and the great outdoors

It's up to you!  
Asphalt and the big-city  
life, or . . . the great  
outdoors and a natural  
environment for  
undergraduate and  
graduate studies.

We're a University of the  
North - for students who  
want to feel part of a  
distinctive academic  
community in an unhurried,  
natural setting.

Laurentian offers  
programs in the Arts,  
Sciences and Engineering  
plus eight other professional  
schools.

Graduate programs at  
Laurentian include Biology,  
Chemistry, English,  
Geology, History, Applied  
Physics, a Commerce  
graduate diploma program  
and an interdisciplinary  
program in Child &  
Development Studies.

Laurentian's recreational  
opportunities are without  
equal in Canada. An  
olympic pool and fitness  
centre, miles of hiking and  
ski trails with the great  
outdoors in every direction.  
Small classes and personal  
treatment make the  
Laurentian Experience a  
very special one.

Phone, write or visit us.  
We'll be glad to show you  
why we're proud of the  
Laurentian Experience.
