

## KIRKLAND LAKE

Museum of Northern History, Kirkland Lake.

Kirkland Lake—the birthplace of numerous famous hockey players—the Mile of Gold—Northern College of Applied Arts and Technology—surrounded by hundreds of lakes, with clean, clear water and teeming with all kinds of fish—beautiful, peaceful trails through forest and bush—warm sand beaches—and, of course, plenty of friendly people!

Making Kirkland Lake your vacation headquarters is a smart move, for there are things to do every day. The new Community Sports Complex offers everything from a workout to a cool, refreshing swim in their Olympic-sized pool, and there are mine tours, a museum to visit, shopping facilities and excellent motel, hotel and camping accommodations.

In the winter months, there is skiing, snowmobiling, skating, and of course, some pretty wild hockey games to watch. Any time of the year, Kirkland Lake is indeed a vacationer's heaven!

## SOMETHING DIFFERENT!

An adventure from the past — an exciting sleigh ride through the frosty air. This is a phenomena still witnessed in many towns of the North during the winter.

## THE CORRIDOR

## THINK NORTH!

It's Closer Than You Think

CALL KIRKLAND LAKE

What is a vacation? What do you want for your family in your free time? Remember there are few times when a hard working man can share his time with his family.

Leave the smog, abandon the hot crowded noisy streets, and find peace in camping on the shores of a northern lake. Listen for the cry of the loon. We are a new country with an old past. You and your family can step into natural history. Walk in a beautiful virgin world that tells a story that needs to be told. The roots of nature are in this rich natural beauty.

Hike, swim, become steeped in the culture of our Franco-phone neighbors. Experience the exhilaration of climbing your first mountain.

Life is more than traffic... and disco... oh, and don't fret we have entertainment as well, but for a true vacation treat, go north and let us awaken you to our hospitality and the beauty of our land.
