with JENNIFER BARR

Most weekday afternoons any time of the year Trinity United Church, Acton, is alive with quiet conversational voices and the squeaking of needles through cloth.

Trintiy quilters gather to work on the latest communal effort and discuss the issues of the day. All ladies, the quilters number 13-a lucky number for them.

Included in the group are Dorothy Simmons, convener, Tiuus Veldhuis, Elsie Reed, Kate McEnery, Marguerite Taylor, Nellie Shoemaker, May Porty, Eleanor Grammick, Loreen Jones, Nellie Wieck, Helen Pickett who makes the tops, Emma Near and Kay Ross who takes care of supplies, designs and patterns.

The ladies can't remember when quilting started at Trinity but all agree it was at least eight years ago and some of them carry group quilting back 20 years when they used to gather at Grandma Lambert's on Main Street South.

Most Trinity quilters learned to quilt at their mother's knees and remember quilting in their early womanhood. The present group is just as much of a social gathering as a work group spiced with tea, Dutch biscuits, lively banter and frequently a visit from the minister, Rev. Chuck Beaton, who finds the ladies good for lifting depress-

Roughly 50 quilts a year are turned out by the group who sell them for church proceeds. Some quilts are done as gifts or for donations. Quilting is also done by order from people who supply their own materials. They also quilt spreads completed by someone else up to the quilting point.

Quilts are sewn at home, each lady doing a block and sewing the patches by machine or appliqueing the design by hand. The entire quilt top is assembled and marked for stitching rows. It's then tacked to the quilting frame which stands in the Trinity nursery six days a week.

Quilting starts as each lady takes her position at the quilt and plunges her specially threaded needle into the virgin cloth.

Stitching is done by hand, tiny rows of neat stitches running in intricate mapping across the landscape of the quilt often the size of a kingsize bedspread.

As rows are completed the guilt is rolled from two sides to enable the needles to reach closer to the centre. Rolling involves everyone's hands as clamps are unscrewed, turned and reset with the help of Dorothy Simmons' screwdriving expertise.

When the last turns are made and everyone is quilting the middle they bump noses and get in a muddle of hands.

Every Monday noon Miss Simmons calls group members to ask "Are you quilting today?" The ladies will quilt for three to four hours at a stretch which, they say, does make them tired,

specially if they're rushing to complete a quilt. Walking home after quilting is tiring, explains Mrs. Reed who started quilting as a child. She has also done a variety of embroidered quilts-"You couldn't buy a quilt in those days". Not content with putting in her hours at the church, Mrs. Reed quilts at home. Sometimes her fingers are too sore to pick

up a needle, she says. Miss Simmons has trouble defining the exact time she started to quilt-it seems she's been involved with needlework most of her life.

Mrs. McEnery has been quilting full time since she retired from work in 1973. It seemed everyone wanted quilts in the early 70s she says, "they were the in thing". Now quilts have declined in poPularity due to increased cost of materials, but the decline is only slight.

Mrs. Veldhuis says she "just got hauled into it"-

She hasn't even got a quilt of her own, she remarks, and Miss Simmons agrees with her-"I keep selling mine", she grumbles.

The ladies don't have time to enter competitions with their quilts although one special birthday quilt they made for their minister last year was entered in the Acton Fall Fair where it won second prize.

Quilts have to be as neat on the reverse side as on the top. All knots have to be drawn in between the covers and thread finishing is done within the cotton batten. Stitches must be even and precise of uniform length. Sometimes Dorothy Simmons is tempted to redo a stretch but never does. It's im-

portant for the group to stay on good terms. Trinity quilts have been sent all over the world including most of Canada, Mexico and Holland.

They are frequently donated to the Cancer Society for use in Princess Margaret Hospital, given to refugees and the IODE. Whoever needs a quilt gets on the Trinity quilters' list.

Visistors drop in to the happy nimble-fingered group, schoolchildren get lessons in the age-old art, ministers get refreshed-methinks Trinity quilters do more good in this world than just plain quilting.

Sometime Tuesday (July 22) town's people will have a chance to see, and perhaps talk to, an extraordinary human being.

# Former residents support Actario

The Actario lottery isn't receiving support just from present residents of

and Dorothy Simmons hold up a completed quilt.

Following are two letters from former residents sent to Ted Tyler, one of the Actario organizers, and filed with ful this newspaper for publication.

Dear Ted:

Enclosed you will find a cheque in the amount of \$100.00 to purchase an Actario ticket. I certainly want to commend you and the rest of the committee for the foresight to have the old Town Hall restored. As a former resident of Acton I still am very much interested in the happenings of the community. I still continue to get the local paper each week and follow all the

Acton and region news with much in-

Members of the Trinity Quilters, Tiuus Veldhuis and Kate McEnery keep stitching while Elsle Reed

Ted I hope your endeavour to obtain the necessary funds for the restoration of the Town Hall is 100 per cent success-

Ron Cripps

Dear Mr. Tyler. I just read of your fund raising lottery, in the Free Press, to save the Acton Town Hall.

I, too, have happy memories of times spent in the hall, especially the Acton Fair dances, and so, if possible, would like to be part of its restoration. Please find enclosed my cheque for

## No funding new school ....

(Continued from page 1)

Minister of Education Bette Stephenson to come to Acton to visit St. Joseph's.

Whelan said if there is no action to get the new school for Acton project moving he will urge parents of children going to St. Joseph's to boycott the present facility this fall. He noted this tactic worked quite well this year in Etobicoke and he thinks the board and province would take action if all the parents send their children to public schools in September.

Byrnes said an architect, Michael Torsney of Hamilton, has been engaged to build the \$1.25 million school beside the Legion.
