MAZDA FOR 1981

HERE'S WHAT'S NEW FROM MAZDA IN '81.
 The Mazda '81 news starts with the completely new front wheel drive Mazda GLC. It's all new from the ground up and loaded with features that make saving money and gas more fun than ever.
 The Mazda 626 coupes and sedans are more luxurious and quieter for '81. And there are two new LX models for even more comfort and luxury—still at a very affordable price.
 The revolutionary RX-7 is available in more models for '81, including a brand new GX that's as luxurious as it is sporting.
 And if you haven't had a look at how much work a compact pickup can handle and save fuel at the same time, the B-2000 has plenty of news for you.
 Overall, the Mazda model line-up for '81 continues the Mazda tradition of superior engineering combined with outstanding value for the money.

'81 MAZDA GLC. FRONT WHEEL DRIVE TOPS THE NEWS.
 GLC for '81 is a completely new car. Its front wheel drive system was developed to give you improved traction and road stability. Its rear suspension is now fully independent to improve ride and handling. It has a new 1.5 litre engine that delivers 46 mpg (61.100 km) and improved acceleration. Plus that new engine is mounted transversely to allow 20% more passenger room and 23% greater cargo capacity. GLC for '81 is quieter, too, thanks to more Mazda engineering know-how.
 This year GLC is available in four models—Regular, Custom, the new Mazda GLC Decor and GLC Sport. Choose the one that suits you and compare it with anything the competition has going. The more you look, the more you like the all new Mazda GLC.

'81 MAZDA 626. MORE LUXURY. STILL AFFORDABLE.
 Time was when a luxury sports coupe or sedan carried with it a hefty price tag. That was before Mazda 626. Even our 626 Deluxe comes with the kind of standard equipment you'd expect to find on cars costing much more.

'81 MAZDA RX-7. THE WINNER GETS EVEN BETTER.
 This year we've upgraded the interior and exterior trim even more. Plus the '81 626 is quieter. And there's a new LX Coupe and LX Sedan that comes with power steering, tilt steering wheel, aluminum wheels, power sunroof, power locks (4-door models), power windows, cruise control, built-in headlight cleaners and much more, at a surprisingly affordable price. The more you look at the 1981 Mazda 626 the more you'll like, especially when you compare them with higher-priced European models.

'81 MAZDA B-2000. THE HARD-WORKING PENNY PINCHER.
 If this is the year you switch to a compact pickup truck, take a good long look at the Mazda B-2000. It's the lowest-priced compact pickup in Canada. And with a Transport Canada fuel rating of 37 mpg (75 L/100 km) it's also the most economical. The more you look, the more you like with Mazda B-2000 for 1981.

MAZDA
 THE MORE YOU LOOK, THE MORE YOU LIKE.
