## Do your homework before you do any work on your home.

Before you start on any home repairs or renovations, you should do some careful thinking. Decide exactly what you want done. Draw up an overall plan. And do a little digging around to find out all you can about potential contractors for your job.

A few precautions will eliminate some common problems:

- ✓ Don't be talked into having work done just because the rest of the neighbourhood is doing it or because the price is presented as bargain basement.
- ✓ If the project is a major one, seek professional advice (i.e. architects or engineers) before the work is started.
- ✓ Ask for estimates from at least three reliable firms.
- ✓ When you decide to sign a contract, find out first who does the actual work.
- ✓ Insist that all details be written into the estimate - the type and amount of work to be done, total cost, date of completion and any extras.
- ✓ If a large amount of money is involved, have a lawyer go over the contract before you sign it. Don't give more than 10 percent as a down payment.
- ✓ Never sign a completion certificate until the work has been done to your satisfaction.
- ✓ Hold back 15 percent of the final payment for 37 days after the work is completed. That way, if the contractor or subcontractor does not pay for materials, you are protected from liability under The Mechanics Lien Act.

Unfortunately, despite the most carefully laid plans, you may find yourself the victim of unethical business practices.

Your Provincial Government wants you to know what your rights are under the Consumer Protection and Business Practices Acts.

- ✓ The Consumer Protection Act allows you to cancel any contract signed in your home (where delivery, payment and performance of work remain to be completed) by sending a registered letter to the company within 48 hours - or two full working days - of signing.
- ✓ The Business Practices Act allows you to have the transaction cancelled by sending a registered letter to the company if you have been misled by false or deceptive consumer representations.
