# Novices suffer defeat in Silverstick

Alton Mcaisac novices came away empty-handed in the regional

Silverstick tournament over the Christmas break, but had fun any-

way. The tournament was played in Parkhill, Dec.

29, with Acton losing two games. Earlier in the same week they were

narrowly defeated by Hespeler 3-2, but on Saturday Woolwich handed

them a 7-1 loss. In the Hespeler match, Chris O'Neill tied the game in the first period on an unassisted goal.

# Motorcyclists taking to ice

Not all of Canada's motorcyclists glumly put their bikes in storage for the winter. More than a few of the die-hard types are praying for sub-zero temperatures so they can go out and play again—on the ice.

Canadian Motorcycle Association sanctioned ice races such as the one the Halton Off-Road Riders are promoting at the Orangeville Reservoir on Sunday, January 25 bring together some of the best riders from all types of summer-time racing. Moto-crossers, dirt-trackers and enduro riders stud up their bikes to join the fray.

Racing starts at noon and continues fast and furiously through the elimination heats with the finals being run off around 4 p.m. \$1000 in prize money is up for grabs and bikes and riders are divided into displacement and skill classes with money or trophies awarded to the first three finishers in each class.

An added bonus is the special sidecar class, where the strength and skill of the "monkey" and the driver are pitted against the basic versatility of a motorcycle with a third wheel. The "monkey" is the sidecar passenger who has to clutch and clamber like a freaked out gibbon to keep the whole outfit upright and moving in approximately the right direction.

Admission to the Conservation area and races is \$3.00 per person.

# ADVERTISING TIPS

HERE ARE SOME TIPS ON WHY YOU SHOULD BOOST YOUR ADVERTISING:

- Whether business is good or slow, you have to get your share of whatever business is around. Cutting back your newspaper advertising puts you at a disadvantage at the very moment you need an edge.
- In times of uncertainty, consumers are careful and a little reluctant to spend. They want to be sure before they buy; they want information. One of the main ways they get information about products, services, prices and values is from newspaper advertising. Yours — or somebody else's.
- Maybe you figure other retailers in your line are going to cut back their advertising, so it's safe for you, too. Right? WRONG. You're in competition for the consumer's dollar with every other retailer in town, no matter what he sells. People have only so many dollars to spend and if they don't spend them for what you sell, they'll spend them for something else.
- "Slow" times ahead? Perhaps, but there are more Canadians working now than ever before. More women working too, adding to family income. People still need and want goods and services and will spend for them. There is plenty of business out there. Your competitors will be bidding for their share — and yours.
- You can't do much about most factors in the marketplace — rent, labor costs, price of merchandise, what the competition will do. But one thing you do control is your own promotion. Remember that newspaper advertising is not just a cost of doing business. It's a proven sales tool that returns many times your investment in store traffic and sales.
- Remember how long it took you to get started? Once you build up a business, you can keep it going with a moderate, consistent newspaper advertising program. But if you cut your advertising and lose your hold on the public's awareness you'll find it's much harder to build it up again. It's sort of like starting all over.
- Your newspaper advertising is part of your sales force. Ads help to pre-sell the customer and help you close the sale faster. What saves you time saves you money.
- You say your customers know you and for a while at least they'll keep coming in even if you don't promote. That's partly true, but shortsighted. Remember, one out of five Canadians moves every year. So there's a steady flow of your customers out of your market, and a corresponding influx of new people who don't know you at all. Tell them about yourself.
- Here's a hard fact to chew on. Over any given period, a company that advertises below the industry average has sales that are below the industry average.
- Advertising is "news" — about products and services. Most shoppers look for this kind of news in the pages of the newspaper. In plush times, retailers often experiment with other media. But when the going gets tough, they concentrate their efforts in newspapers because they provide an immediate pay-off at the cash register.
