.99 500 ml
Our reg. price 1.19

So, what's wrong with saving?

The friendly, helpful Handyman at Home Hardware will tell you that of all their monthly sales, this January sale is probably their most successful. This sale is filled with needed, timely items, whose regular, competitive prices have been cut to the bone.

Besides these much wanted specials our customers realize that every Home Hardware will be loaded with hundreds of Red Tag, deeply-cut clear-outs from every section of their stores. Grandma always said that a bargain is not a bargain unless you need it. But you have to need at least 2 furnace filters each winter. Why? Because they make your furnace operate much more efficiently and cleanly. You have to need sufficient humidity in your home to protect your furniture, rugs and drapes, economize on fuel, and greatly ease your own breathing.
