Save Energy Save Money

There is a convincing reason for you to save energy. The reason is money. By saving energy you will slow down the pace of those ever increasing utility bills. What can you do? Here are some tips:

- Keep thermostat at 68 degrees or lower during the day.
- Set night time temperature at 55 degrees.
- Change furnace filters at least three times during heating season.
- Turn off heat and close unused rooms.
- Open draperies and shades on sunny winter days and close them at night to reduce heat loss.
- Use a humidifier for comfort at low temperature.
- Keep doors to the outside firmly shut.
- Repair leaky hot water faucets immediately.
- Keep fireplace damper shut when not in use.
- Turn out the lights when leaving a room.
