1145-807-12 14 oz.

Easy to install pipe. Canadian made.
1 1/2" x 12 Ft. 499
3252-045-10

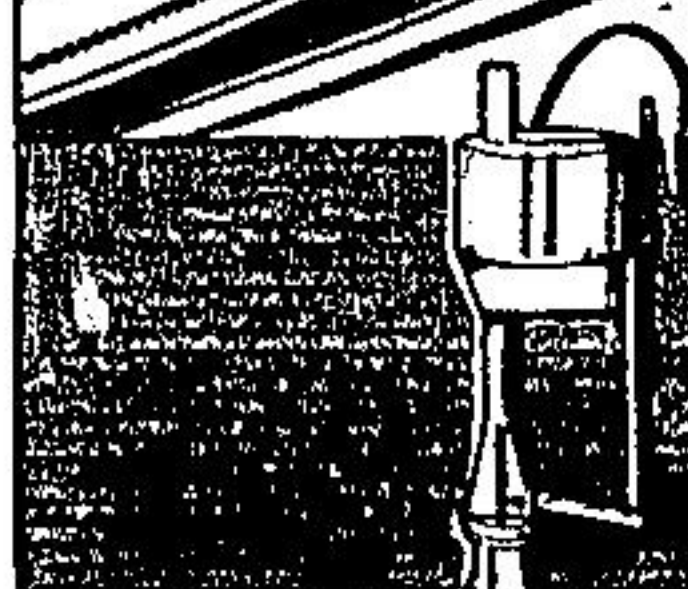

3" x 12 Ft. 1399
3252-081-3
A.B.S. Pipe Solvent 156
1/2 Pint 3253-936-24

Latex paints are water-base paints; alkyd paints are oil-base paints. Water-base paints dry faster than oil-base paints and, as a rule, do not give off a "painty" smell so common with oil-base paints. Latex paints are easier to use, since all the clean-up can be done with water. Brushes and rollers are washed with water. Perhaps the best feature is that latex paints dry to the touch in about 30 minutes. Always buy the best brush, roller or pad you can afford. Cheap tools do not spread the paint as smoothly and evenly as do good quality ones. Nylon or polyester brushes are better than pure bristle brushes for latex paint.

Nylon rollers available in 7 1/2" or 9 1/2" lengths are again superior to rollers of wool or mohair for latex paint. Natural fibres in brushes or rollers are best for oil-based paints.

The surface to be painted must not only look clean but have all dirt, grease, detergent film or sanding dust completely removed. Trisodium phosphate (T.S.P) dissolved in water is your best cleaner. If the wall is still shiny after the grease or detergent is removed, make it dull for better paint adherence with sandpaper or steel-wool. Any bare or porous surface of drywall should be first sealed with Beauti-Tone Interior Latex Primer-Sealer.

I would like to take a minute to tell you about a fairly new product, WD 40, that normally appears on our Home Hardware shelves for \$2.39 6 oz. spray can. During this sale you can buy this very useful lubricant for only \$1.59. Simply spray WD 40 to locate and stop irritating squeaks. It is silicone-free and clean to use. WD 40 penetrates and quickly frees frozen bolts, fasteners, tools and rusted metal parts. WD 40 lubricates and restores smooth operation to moving parts in hard-to-reach places. No need to disassemble. WD 40 protects all metals by providing an invisible barrier against corrosion. It drives out moisture in seconds.

Fluidmaster Ballcock
Fits all standard tanks. Stainless steel fittings. 3277-359-25

587

Watermaster Tank Ball
3277-046-12

144

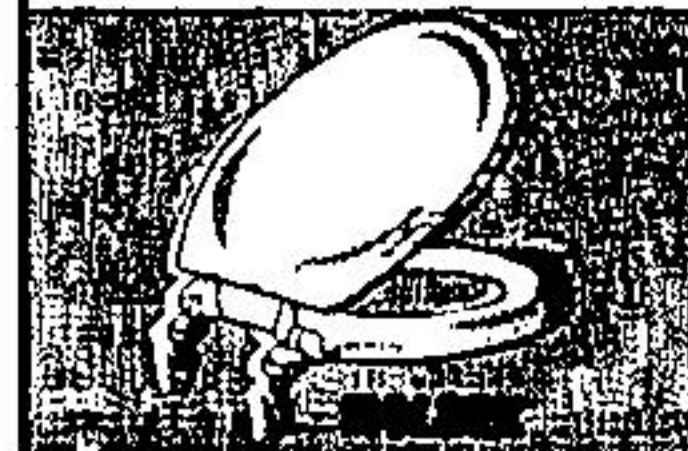

'P' Trap with Cleanout
A.B.S. 3253-838-25

119

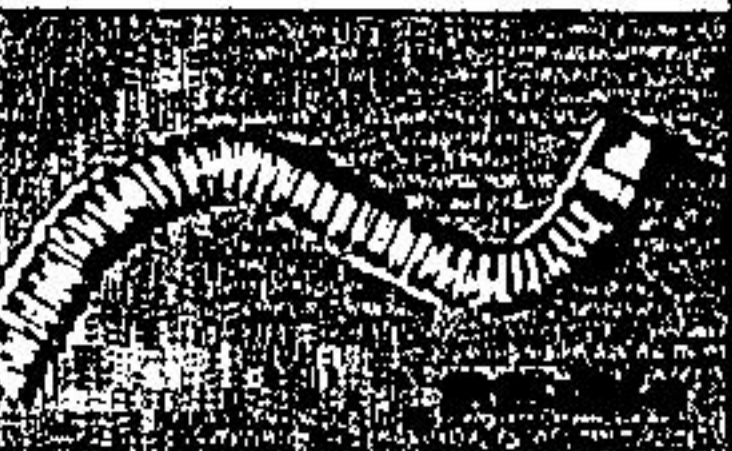

Toilaflex Toilet All-Angle Plunger
3225-352-4

399

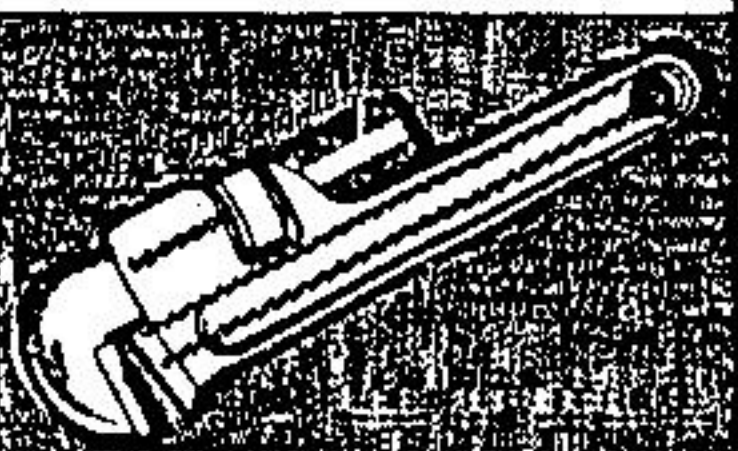

Moulded Toilet Seat
Canadian made. 3276-109-8

598

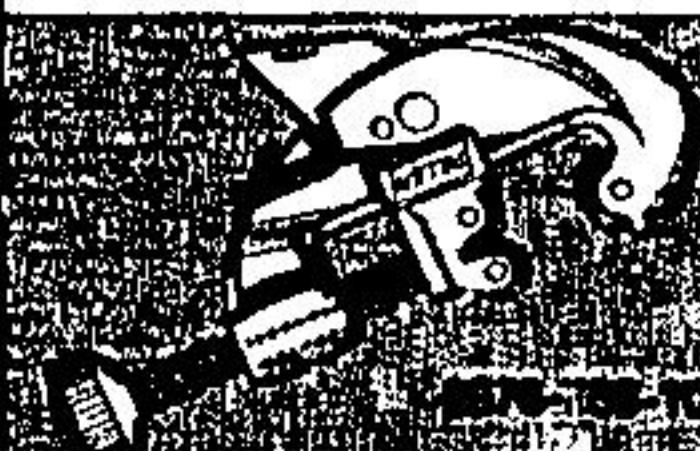

Sump Pump Kit
Includes 24 feet of flexible tubing with 1-1/4" male adaptor and clamp. 3125-086-1
Sump Pump Float Kit 595

Rigid Pattern Pipe Wrenches
Drop forged alloy steel hook jaws. 1158-359-6

969

14 Inch

Benchmark Tubing Cutter
Adjusts to cut 1/8" to 1" tubing. Has jack-knife type reamer blade.
