Scotts Lawn Insect Control Plus Fertilizer - 28-6-4

The bag weighs 13.8 lbs, covers 4300 sq. ft. and has 3.6% diazinon added to provide up to 6 week control on lawn insects. For grubs, the period is late July through October. For surface insects activity can occur from June through September. Water in.

Lawn Moss Control with Fertilizer 19-5-5

(not available in all areas) The bag weighs 16.8 lb. and has a 2000 sq.ft. coverage. Apply in early spring when lawn is wet. Rake moss infested area before application.

Scotts Vegetable Garden Fertilizer 18-24-8

It comes in 2.2 lb. boxes to cover 135 sq.ft. Should be raked lightly into the soil. Will not burn.

Scotts Grow Flowers 18-12-14

It comes in 2.2 lb. boxes to cover 225 sq.ft. When applied to soil surface it provides a strong start and sustained feeding for best flower results. Will not burn.

Scotts Grow Shrubs and Trees 20-4-8

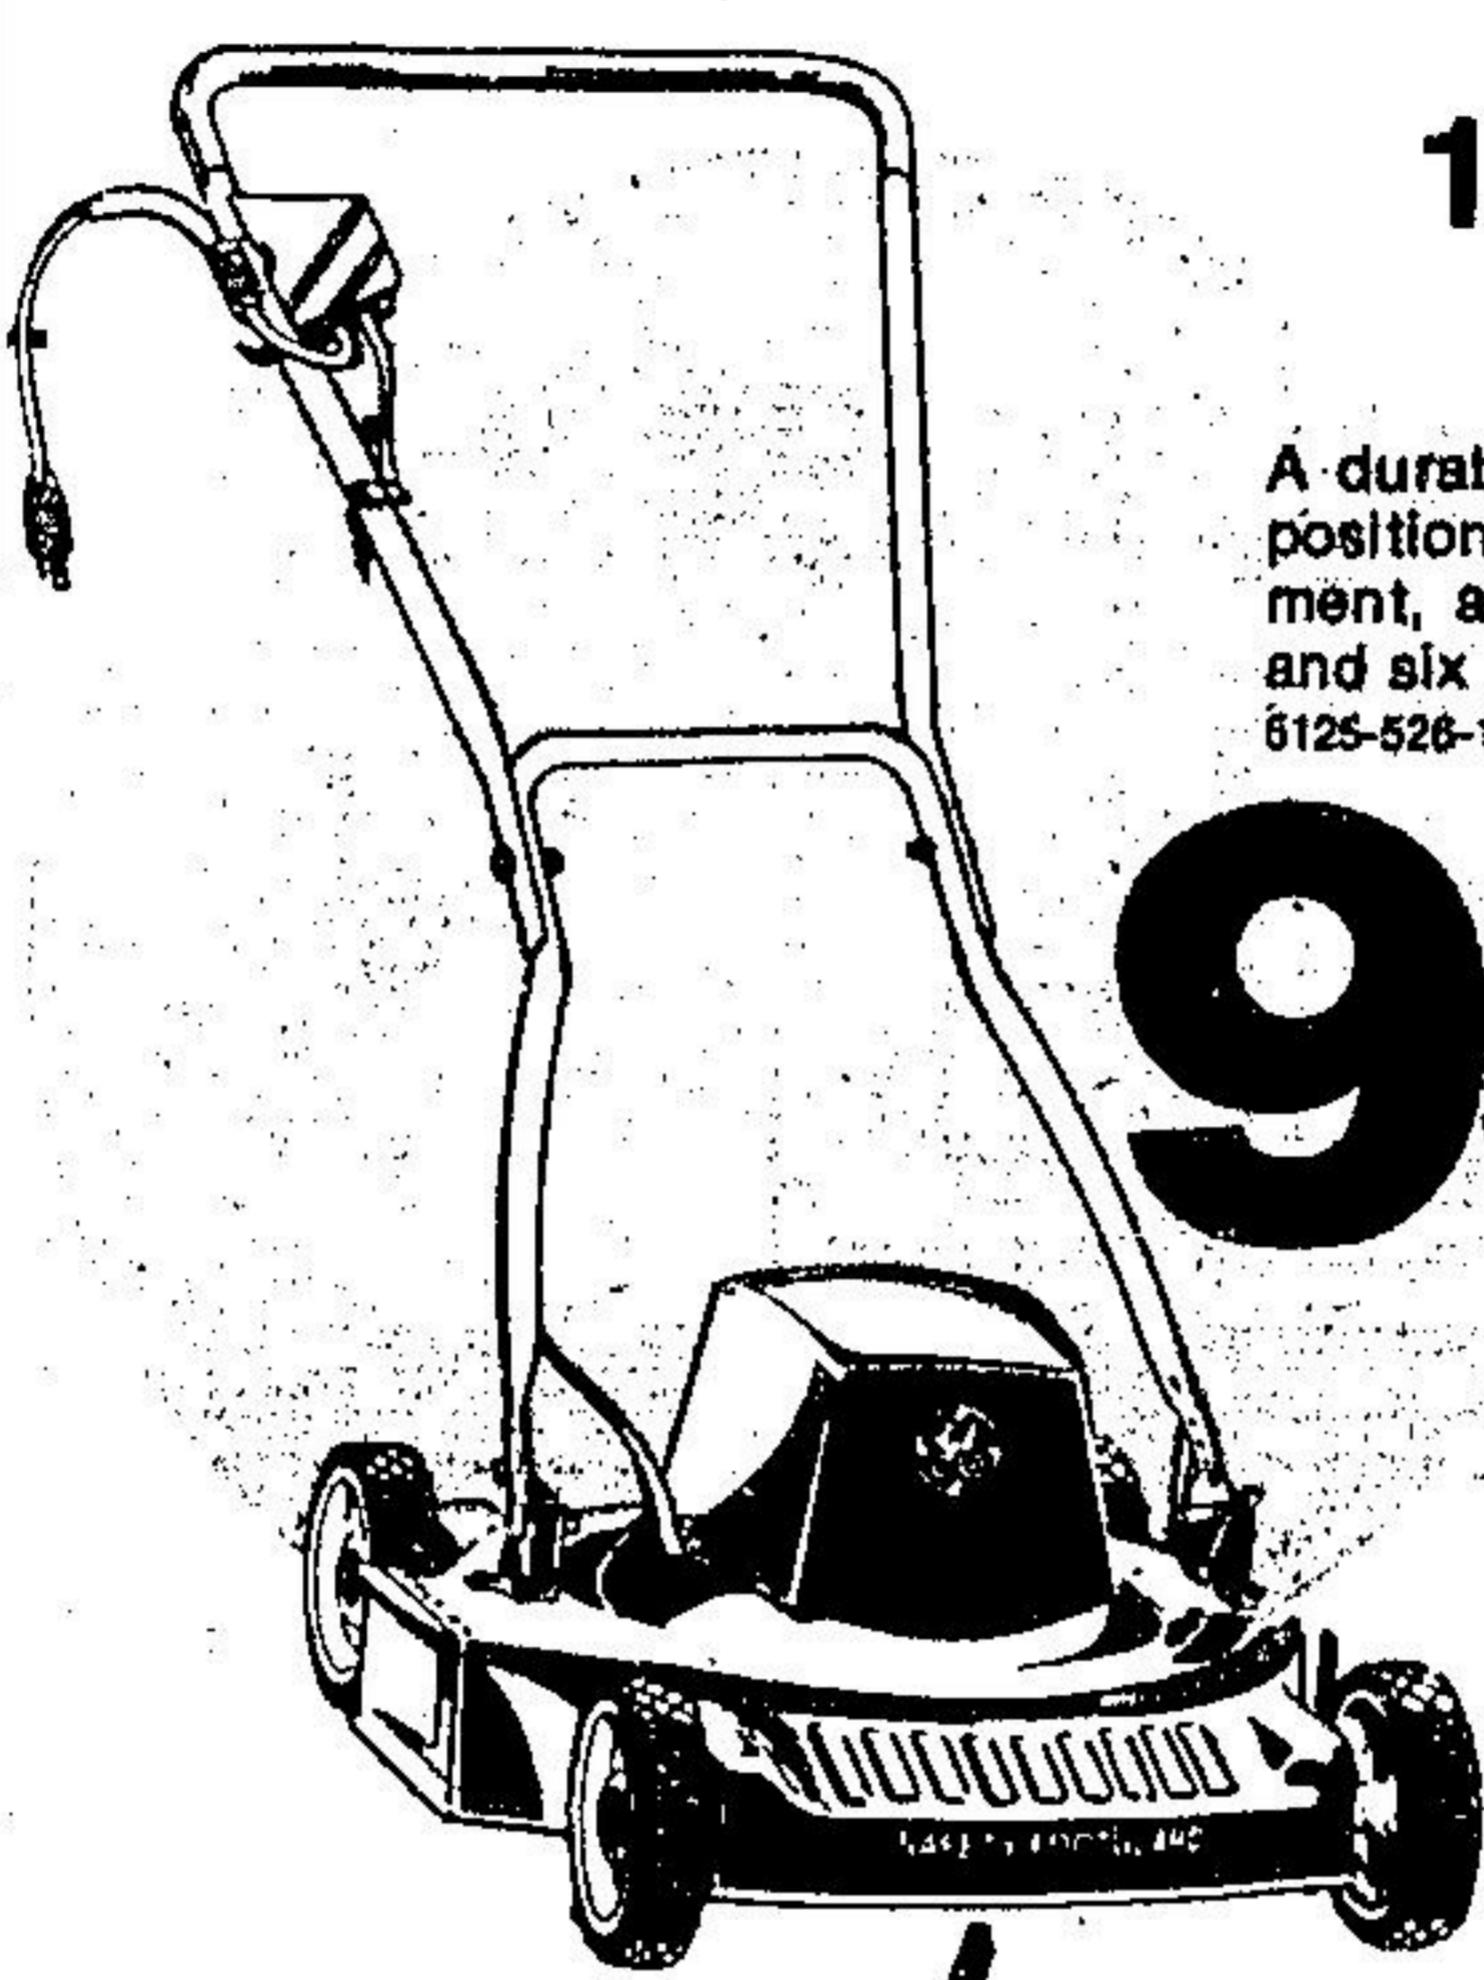

It comes in 2.2 lb. boxes to cover 225 sq.ft. When applied to soil surface this formula sustains growth and beauty of shrubs, trees and ground cover.

Scotts Spreaders

Each plant needs an equal share of whatever you are applying and that type of distribution takes a precision spreader. Scotts "Precision Flow Control" spreader applies material at the exact rate. Its epoxy finish allows for extended life and fewer rust-related problems. It has a positive on-off control which gives a very uniform application at all settings. Fertilizing can be done speedily with this wide (21") heavy gauge unit.
