THESE SIGNS?

Life is full of signs.

Signs that advise. Signs that warn.

And we know most of these signs, because we know they're meant to protect us.

That's why, when it comes to cancer there are important signs

you should also know. Because the quicker you can recognize them, the quicker you can take action.

Breast lump, persistent cough, a sore that doesn't heal... if you discover one of these signs, see your doctor.

Chances are you don't have cancer at all, but why take chances.

When it comes to cancer... know the signs.

Sprackman plaza issue to OMB

Landawn Shopping Centres, Jerry Sprackman, has referred its appeal of Halton Hills rejection of a proposal for a plaza on the east side of Acton in 1979 to the Ontarlo Municipal Board.

Back in January Landawn asked the OMB to hold off on a hearing because the town and region had retained a consulting firm to study the urban servicing boundary and sewage capacity for future development in the Acton area.
