Front row, Isabel Benton, Mary Booth, Maxine Ellerby, Jean Anderson, Jean Kirkwood and Lorene Sanford.

Too many deer, need deer hunt

Sir:
I would like to congratulate Mrs. Kilmer and Mrs. Martland on their super anti-hunting publicity, which has delayed approval by council for this year's deer hunt.
Their reasons for getting a delay are not always valid, and in fact there is at least one total error contained in their statements, that would not be recognized by the majority of people.
I take issue with Mrs. Martland who says quote "she was walking through the woods near her home and found a camouflaged hunter sitting up a tree with a cross bow, this was at the end of November, long after the ministry deer hunt concluded November 5." The legal archery season did not end until the middle of December.
The picture of the two ladies holding up a NO Trespassing sign which was shot at by some idiot, appears to be shot at with relatively small size shot, indicating that this was not done by a deer hunter, since deer hunters use large shots or slugs.
The ladies quote the Ministry of Natural Resources concerning their lack of information about the exact numbers of deer. Our club was asked to provide a dozen or so men to beat through various woodlots to determine the exact number of deer in that location. As far as all the figures concerning the increase in automotive traffic of course that is self evident. It is also well known that anybody who takes an interest in the deer population knows that for every deer killed by a car there is one that probably gets away in a bush and dies later. In keeping with the ladies contempt for the deer I assume this is OK.
Contempt for deer? I mean exactly that. The ladies in question seem to feel that coy dog hunting deer is perfectly acceptable, although it is unacceptable for the same dogs to run sheep etc. I wonder what gives the ladies the right to make that judgement, could it be they have a vested interest in cattle—the old mighty buck strikes again?
Have the ladies ever witnessed dogs running a deer?
It is not a pretty sight, one that I can certainly do without.

Urge people support hunt

Dear Sir:
Once again the suggestion of a deer hunt has produced a rash of instant wildlife experts. Suddenly the Ministry of Natural Resources Biologists have taken leave of their senses and the local deer population must be rescued from certain extinction or at least mutilation by the onslaught of inept hunters. Hogwash!!!
What is surprising is the Regional Council would on the objections of two residents fail to side the necessary approval for the hunt in spite of the Recommendation of both the Ministry of Natural Resources and their own committee.
The instance of a deer with its "face blown apart" having drawn itself into a "citizens backyard" has been given as an example of what will happen if last year's hunt is repeated.
My information is this incident occurred some four or five years ago within the limits of the city of Guelph. This, of course, would have been in a period when no legal hunt was being held.
Since there were few incidents of problems

Keep rifles locked up in cabinets

Dear Sir:
Re: Deer Hunt 1981.
Last fall I did buy a licence to hunt deer on my own property of 175 acres for one reason, to stop anyone from hunting on my property.
I have had a lot of deer on my property for the past 30 years and I believe they graze on all the lands in Halton Hills at one time or another.
I do not believe there are as many deer here as the department of lands and forest claims. The cost to the taxpayer to have to pay for this and also their time lost and expenses we have to pay for does not warrant any hunt ever.
Please let's leave the deer alone so we can see them in the future on somebody's land in Halton Hills. Our rifles lock better in gun cabinets locked up to look at only, and if someone wants to hunt deer let them go 100 or 200 miles north where the country is far less populated.

HOLIDAY IN FLORIDA
