

### 11-hp Lawn Care Tractor Gives You Power And Maneuverability

The power comes from a rugged 4-cycle Briggs & Stratton engine that's synchro balanced for reduced noise and vibration. Easy key ignition start gets the 3-speed transaxle drive transmission going, and full power reverse makes it extra-maneuverable! 38" full floating deck and pneumatic tires are designed to guard against lawn damage, while adjustable lift lever and deck wheels lets you pay custom attention to lawn care. Disc type brakes give you better stopping and holding control with parking brake. Not equipped with chrome hub caps . . . 545-440

### Bring Your Large Lawn Down To Size With A Tough 16-HP Tractor

When you've got a really big job to do, choose the "Turf Trac", powered by a reliable 4-cycle Briggs & Stratton 16-hp, twin cylinder engine. Synchro balancing reduces vibration, and a 10-tone muffler cuts noise. Transmission features 4 forward speeds and 1 reverse for real versatility; plus heavy-duty transaxle. 44" twin-blade cutting deck has 5-position cutting height adjustment lever and quick-adjust mowing deck wheels. Other features include disc brake and parking brake, auto-type segment and pinion steering for responsive control and tubeless tires that help prevent lawn gouging.
