

Where Does Armor All Work?

In the Garage • Automobile

• Bicycles (prevent tire, sidewalls from rotting, protects seat and paint finish)
 • Waders, wet suits, swim-fins • Power lawnmower, garden hose • Power extension cords • Everything made of rubber vinyl, plastic or leather.

On the Patio • Vinyl furniture

• Vinyl or fibreglass awnings • Barbecue covers

In the House • Kitchen appliances - porcelain paint and rubber

• All vinyl and leather furniture • The piano • Typewriters, camera cases, binoculars, radios and tape recorders.

In the closet • Purses, shoes

jackets, belts • Luggage and briefcases • Boots • Vacuum cleaner • Everything made of rubber, vinyl, plaster or leather.

Carbide Tipped Multi-tooth Saw-blades

Whether for your table saw or your power hand saw, Carbide-Tipped blades are certainly beginning to take over. The wood craftsman is tired of the constant interference of changing dull blades and the cost of having them sharpened.

He also realizes he can use them for cutting tough-to-cut materials such as Transite, Cemesto board, asbestos, formica and masonite. Each blade has Tungsten Carbide permanently braised on each tooth for up to 15 times the cutting life without sharpening. Although these blades are priced higher than regular blades, they give the home handyman top value for his money.

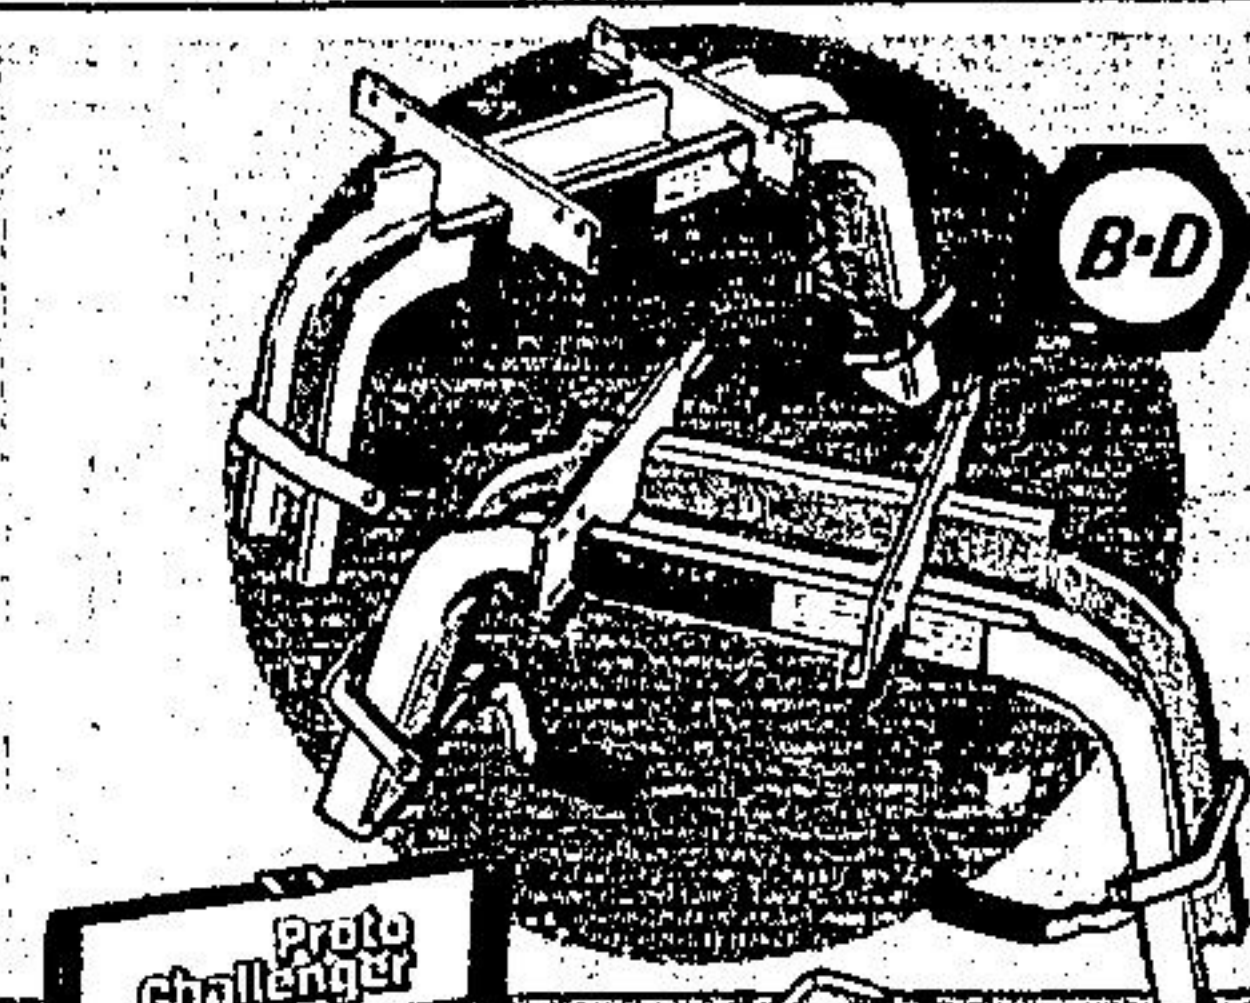

Wet/Dry Shop Vac

Wet/Dry Shop Vac is the rough and tough cleaning machine for total home care.. Wet or Dry. It handles spills easily; even lifts-up water after scrubbing floors of linoleum, stone, or carpets. It sucks up water easily and quickly from plugged up sinks.

It gobbles up the nastiest dirt problems. It is the ideal way to clean up the garage - easy to store, perfect for easy maintenance. No cleaner can clear out a fireplace so fast and easily.

It is an outdoor vac for patios, porches, sunrooms, greenhouses. It is the perfect cleaning tool for the workshop - scoops up woodchips and other debris which would choke an ordinary vacuum cleaner.

Handyman Home Savers

Platform Bracket
