Your Shop-Vac converts to an efficient blower. Simply place the hose in the exhaust port and use it to blow leaves out of your garage, dry a pet or remove dirt from hard to reach places.

New long-life foam filter for wet pick-up. Cleans easily and quickly. Paper filters are available for fine dust application. To increase your Shop-Vac's uses, a wide range of 2 1/2" accessories is available to gobble up bulky debris - leaves, broken glass. What versatility!

The Noma Cord Caddy goes to work wherever you do - in your workshop, garage, house or many outdoor and marine uses.

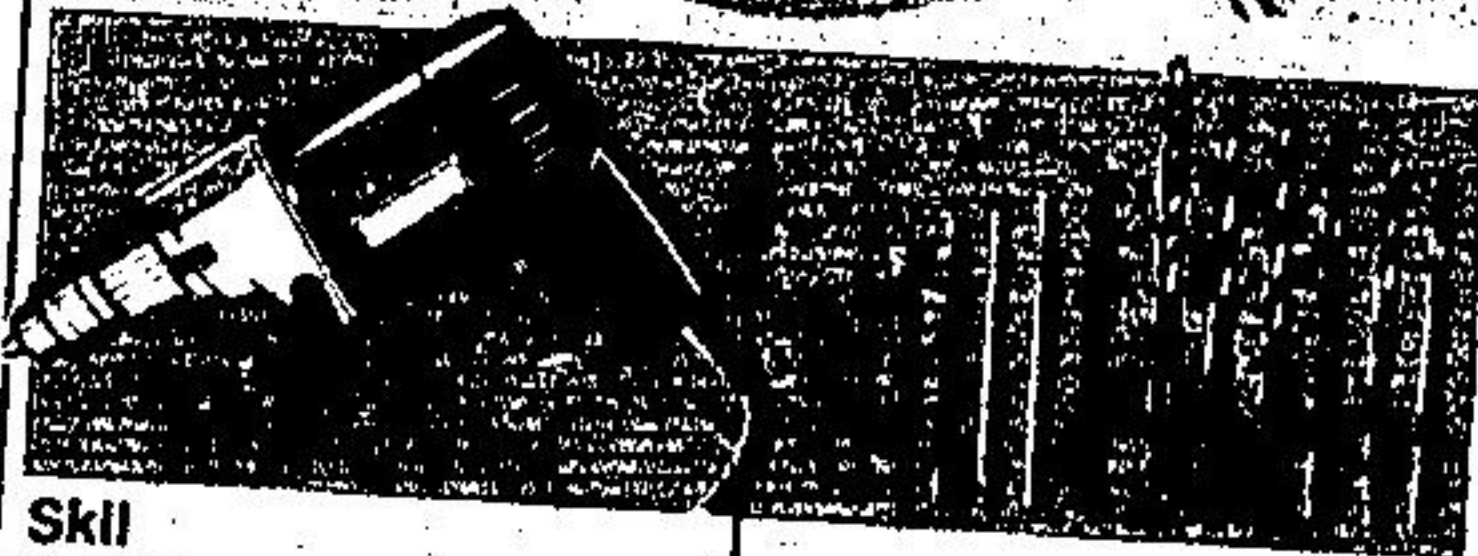

This self-storing extension cord is 8m or 26 feet long, 14 gauge and is 10 amp, 125 Volt C.S.A. approved. It has a durable plastic casing with a convenient carrying handle. Its easy rewind puts an end to awkward tangled extension cords - a screw adjustment even allows, for left handed re-winding.

Its 10 amp built-in circuit breaker protects house wiring, tools and circuit fuse in box. It trips in case of overload. Simply push circuit breaker reset button. Its dual grounded outlets allows for safe, convenient use of two grounded tools. The cord is protected from damage in its neat limited storage space.

Electrohome Dehumidifiers make better use of summer storage areas, basements and laundry rooms. Excess humidity can cause warping, rust and mildew damage, cause windows and doors to stick and basement pipes to drip. Without proper air circulation, damp, musty odors may develop.

A dehumidifier will draw off much of this excess moisture in the air, eliminating many of these problems. Electrohome has four fully featured models with new contemporary designs to suit your needs and decor.

Your Handyman

**Skill  
3/8" Xtra Tool**  
Adjustable trigger speed control. Forward or reverse. Double Insulated. 1240-669-5
