On right track with summer job

"They've been working on the railroad..."

Four Acton and area students could have used this old tune as the theme to their summer job.

Kathy Johns, Sandra Krisch, Dave Johns and Phil Laiter spent a combined total of about 1,800 hours this summer working on refurbishing a 69 year old inter-urban railway car as part of an "Experience '81" project at the Halton County Radial Railway Museum.

When the four started on their summer project the Montreal and Southern Counties Number 107 car was in pretty rough shape. It could run, but it couldn't stop and was in desperate need of some body work.

Now, just nine weeks later, the outside is just receiving the finishing touches, and the entire air tubing for the brakes and whistle have been replaced, along with new air tanks.

"When it's done it feels good to have worked on it, but in the middle of the summer it was frustrating," said Laiter.

Miss Krish and Miss Jones, along with another worker, Lynne Meek, had the most difficult job, they had to scrape through three to four coats of old paint using a modified electric barbecue starter. The starter would bake off only a six inch by one inch section of paint at a time.

This slow and tedious job took the trio six weeks to complete.

While they were doing this David Johns and Laiter were busy with the re-pliping.

The five were left pretty well on their own. Some Radial Railway volunteers helped with the work, and put in about 300 hours, but the students knew what had to be done.

"The guys know enough about the cars, David knows the most," said Miss Krisch.

David Johns should know the most.

"My father is president of the (Halton County Radial Railway) club. I was born into it," he explained.

Both he and his sister Kathy have the passion for working on the railway cars in their blood. The other two, have found it an easily contagious affliction.

It's the second year of working on the cars for both Laiter and Miss Krisch.

"I started working on the cars and I liked it so I

came back this year," said Laiter.

Miss Krish said it is so rewarding she would have volunteered to work at the museum even if the Experience '81 grant wasn't available.

"It's history, it's the only collection of its kind in Canada. There are other museums, but they don't operate," said David Johns.

"It's something people don't know about," added Laiter.

The honey was tempting, but the people were really sweet.

When people heard about the 1981 Weight Watchers Food Plans, our classes attracted lots of honey lovers, popcorn poppers, and peanut butter nuts. Then people discovered something even more irresistible about Weight Watchers. Other people they found that Weight Watchers members really cared. And it was so much easier to lose weight when they weren't doing it alone. Together at weekly classes.

we can teach you how to enjoy lots of your favorite foods (within limits) and still lose weight. We can help you turn bad eating habits into good ones. Join us today. The fabulous 1981 Food Plans are waiting along with a lot of friendly people.

1/2 PRICE SPECIAL

AUGUST 31 TO SEPTEMBER 26, 1981

WEIGHT WATCHERS

JOIN WEIGHT WATCHERS FOR \$6.00 INSTEAD OF REGULAR \$12.00 FIRST MEETING FEE. (Senior Citizens and Students join for \$3.00 during these four weeks)

WANT ADS ON TARGET EVERY TIME

DON'T WASTE ANY MORE TIME

You can start your future right now. The Brampton campus of Sheridan College has a limited number of openings in the following career programs:

Retail Management Arts (2 years)
Learn the personal and professional skills needed to become a supervisor or manager in the retail field. Employment opportunities in this expanding industry are excellent.

Correctional Worker (2 years)
Develop the skills and knowledge to work with adults and juveniles in conflict with the law. Graduates find rewarding jobs at better-than-average starting salaries in institutional settings.

First-Year Technology
This year is common to all three-year technology programs and provides students with skills in basic engineering sciences. On successful completion of this year, the student may choose a major in Electronics, Chemical or Mechanical Engineering Technology.

Chemistry Laboratory Technician (2 years)
Students learn the theory and practical skills needed for analytical instrumentation and laboratory techniques.

Civil Engineering Technician (Construction) (2 years)
Learn skills such as estimating, surveying and construction methods and materials, essential to successful employment in the industrial, commercial and residential building industries.

Drafting Engineering Technician (2 years)
Choose either the mechanical or architectural drafting option. Graduates are employed in mechanical design offices of consultants, steel firms, small and large manufacturing companies, architects and municipal planners.

One-Year Intensive Secretarial Program
Training in secretarial skills and office procedures provides a thorough background for those who wish to prepare for well-paid secretarial positions. Subject areas include Forkner shorthand, typing, machine transcription and the use of word processing equipment.

Transportation to the Brampton campus is convenient. Brampton Transit or Sheridan buses take you right to the door.

For further information or to apply call: Sheridan College Brampton Campus McLaughlin Road Brampton, Ontario L6V 1G8 489-7533 or 384-7491 (Toronto) Ext. 218
