Loss for words

(Continued from Pg. B1)

"I don't do things to please the fans, as far as I'm concerned, the fans aren't even in the building," he said. "Fans do a lot of name calling. I don't listen to their crap, they don't have to listen to mine."

The refs did, as a result Rick Smith will be behind the bench for the next two games.

In Georgetown it was stupid penalties which caused Sabres' demise.

Sabres troubles started off with a bad penalty just seven seconds into the second period. A Gem player took the puck from the faceoff and broke down the ice all alone, goaltender Les Williams reached out at the Gems' player for a poke-check, then threw his stick. The shot was wide, but Gems were awarded a penalty shot and scored to even the game at 1-1.

Gemini scored one more goal before the end of the frame on a powerplay. They found the opening five times in the last stanza-two were powerplay goals.

Tony Dullase scored Sabres goal in the first period on a pass from Mike Monlhan. Gary Williams and Gord McArthur scored Sabres' goals in the third period, Ken Relf and Williams had the assists.

The Milton game went just as Russiani expected. "Milton has no set plays," said coach, "so the

game turns out not to be too good to watch. A team can't defend against something you don't know." In the end, Sabres beat this 'shoot-and-chase' club

Mike Monihan and Dennis Charbonneau had a pair of goals each, Dave McGilloway, Rob Vermeulen, newcomer Ken Whetham, Relf, Kirton and Duval had singles.

Acton had a 3-0 lead in the first period, traded three goals in the second, then scored four to Flyers

Russiani was happy with Sabres play against Burlington in the first period, as it was a close defensive battle. Acton allowed one goal and were out shot a mere 6-4.

It was 5-3 by the end of the second period. In the third period Sabres and Cougars matched each other with three tallies. Relf scored all three final period goals, Gord McArthur, Duval and Whetham had the second period markers.

Friday Sabres host Brampton, 8 p.m. at the Community Centre.

There are skis on the market which don't require waxing, but Graham said the waxing of skis isn't difficult, and can even be performed on the trail in about 10 or 15 minutes.

There are five different types of wax available, for different types of snow. The two most popular are red for moist fine grain corn snow and blue for fine grain dry snow.

Cost for the waxes is only two dollars a tube, which will last the average skier a year.

Besides the nominal price for a year's skiing, the sport is gaining popularity for a number of other reasons. Cross-country is a family sport and it's a good form of exercise.
