# INTRODUCING CO-OP FARM CHECK

## A few minutes now can save you days of downtime, later.

Take the time to send us 2 ounces of used oil and a brief equipment information sheet, now and you can reduce major repair costs and prevent unnecessary downtime, later.

The CO-OP Farm Check is a preventative maintenance system for farm and commercial vehicles through analysis of your used oil.

Our computerized check can detect abnormal wear, filter failure, poor combustion, dirt contamination, water and antifreeze leaks and many other potential problems before they become a costly problem.

Farm Check can also show you how to get maximum use of your lubricants for whatever conditions you're working in.

**INTRODUCTORY OFFER: FREE FARM CHECK**  
Buy \$100.00 of CO-OP Oils and Greases during our Spring Savings Sale and we'll give you the CO-OP Farm Check Sampler free. Or if purchased separately pay only \$5.99 during the introductory period.
